Commissioner, N. D.;

To

The Honourable Mr. G. W. VIDAL, I. C. S.,
Chief Secretary to Government,
Revenue Department, Bombay.

Ahmedabad, 26th September 1894.

Honourable Sir,

I have the honour to submit the Annual Report on the Administration of the Local Boards in the Northern Division for the year 1893-94.

1. Statement showing the constitution of the Local Boards.
2. Do. the income of the Local Boards.
3. Do. the expenditure of the Local Boards.
4. Do. the details of works for the improvement of sanitation.

2. I append the prescribed statements as per margin, as also the reports submitted by the Collectors and Presidents of the different Boards.

Statement No. I.

Population.

3. The statistics of population shown in Statement No. I are according to the Imperial Census of 1891.

Constitution of the Boards.

4. The number and constitution of the Boards remained unchanged during the year, there being, as in the previous year, 6 District Boards and 40 Táluka Boards. The Collector of the district is the President of the District Board, while the Assistant and Deputy Collectors preside over the Táluka Boards in their sub-divisions. The proportion of official and non-official members and the number of Europeans, &c., and Natives remains exactly the same as last year.

Panch Maháls is the only district in this Division to which the elective franchise has not been extended owing to the backward condition of its inhabitants.

Election.

5. The triennial term of the Local Boards in the Broach District having expired on the 31st December 1893, they were reconstituted during the year under report. The interest evinced in the election of members may be judged from the figures given in the following table:—

District.	Names of Boards.	Number of persons entitled to vote.	Number of voters who attended the poll.	Percentage of voters who attended the poll to the total number of voters.	Number of seats.	Number of candidates.	Number of votes obtained by successful candidates.
Broach.	Táluka Local Board, Broach ...	2,825	482	17·0	8	12	376

	Do. Anklesvar ...	2,303	711	30·9	8	10	477

6. The following table shows the number of meetings held in each district, the number of official and non-official members on the Boards, and the average attendance :—

Meetings.

Meetings and attendance generally.

7. From the above it will be seen that the total number of meetings held during the year were 223 against 221 in the preceding year. The attendance of official members has been better in Kaira and Broach, while it has been a little worse in Ahmedabad. No change has taken place in Panch Mahâls, Surat and Thâna. The non-official members have, however, fallen off in their attendance in every district, though not to a large extent in the Panch Mahâls and Surat.

District Board meetings and attendance thereat.

8. The District Boards held 15 meetings as in the preceding year—four in Broach, three in Ahmedabad and two each in Kaira, Panch Mahâls, Surat and Thâna. The average attendance was as per margin. The members in Thâna seem to evince by far the greatest interest in their duties. There was a slight improvement in Ahmedabad and Broach, but Surat and Kaira have retrograded seriously. There has been hardly any change in the Panch Mahâls. All the District and Tâluka Local Boards, however, complied with the provisions of the law regarding the holding of half-yearly meetings.

Statement No. II.

Total income.

9. The total income of the several Boards amounted to Rs. 12,98,112-13-5 as against Rs. 12,05,937-10-3 in the preceding year, showing an increase of Rs. 92,175-3-2. Adding the balance of Rs. 8,44,042-5-6 at the commencement of the year, the sum available for expenditure was Rs. 21,42,155-2-11 against Rs. 21,01,319-9-5 last year.

10. The principal items of income are shown below :—

Heads.	1893-94.			1892-93.		
	Rs.	a.	p.	Rs.	a.	p.

Debt	2,647	0	0	1,090	5	0

11. *I—Land Revenue.*—The receipts under this head consist of the sale-proceeds of trees, grass, &c., and show a decrease of Rs. 2,855 as compared with

the previous year. All the districts except Panch Mahâls and Broach share in the decrease. In Ahmedabad it is explained to be due to a larger number of trees on the Local Fund roads having been sold in the previous year. No explanation has been offered as regards the falling off in other districts, but the receipts are of a fluctuating nature and vary everywhere.

12. *VI—Provincial Rates.*—The realizations under this head, which constitute the principal source of income of the Local Boards, are derived from the net proceeds of the one anna cess levied under the Bombay Local Funds Acts of 1869 and 1884. The following table shows the income in each district and the incidence per head of population :—

District.	Total income.	Revenue derived from one anna cess.	Percentage of column 3 to column 2.	Incidence of one anna cess per head of populatian.

Total ...	12,98,112 13 5	7,65,779 12 10	59·0	0 3 2

13. As compared with the preceding year there is a net increase of Rs. 28,969. The increase is contributed by all the districts except Thâna where there was a small decrease of Rs. 120. The largest contributor is Ahmedabad, where the increase amounts to Rs. 18,288 and is stated to be chiefly due to (1) the large amount of Local Fund cess refunded to the Limbdi Darbár in 1892-93, and (2) the introduction of revised assessment of land revenue in Tálukdári villages in the Dholka Táluka during the year under report. The next largest increase occurs in the Broach District and is due to the larger revenue realized by the annual sales of Bet (river bed) lands. The increases in other districts are small and require no explanation.

14. *XIX—Education.*—There is a small increase of Rs. 240 only in the income under this head as compared with the past year.

15. *XX—Medical.*—The increase under this head amounts to Rs. 3,521 and is principally due to the balances of certain Dispensary Funds having been taken over by the following District Local Boards :—

	Rs. a. p.
Broach	2,041 5 9
Surat	384 3 8
Thâna	931 9 10
	3,357 3 3

16. *XXXII—Civil Works.*—The income under this head amounted to Rs. 1,94,789-12-8 against Rs. 2,04,748-9-6 last year or a decrease of Rs. 9,959. The principal items credited to this head are tolls on roads and ferries and contributions from private persons, &c. The revenue under the former head has risen from Rs. 1,33,827 to Rs. 1,43,299 or Rs. 9,472 more than last year; while that under the latter head has fallen from Rs. 69,373 to Rs. 47,545, giving a decrease of Rs. 21,828.

17. The increase under tolls occurs in all the districts except the Panch Mahâls, and is stated to be generally due to larger bids having been made for the toll contracts. In Surat, however, it is explained that no special repairs as in the previous year having been made to the Hope Bridge, the net amount

Causes of increase in the toll collections.

of toll receipts credited to the Local Funds was larger and also that the departmental system of toll collections was more efficiently worked. The decrease in Panch Mahâls is ascribed to the opening of the Godhra-Ratlam Railway as far as Dohad.

Causes of decrease in the item of contributions.

18. The decrease under "Contributions" occurs chiefly in Surat where the receipts of the past year under this head were swelled by the handsome contribution of Rs. 25,000 from a Parsi Lady towards the construction of a road from the Udwada Railway Station.

19. *Contributions.*—The receipts under this head are composed of the following items :—

District.	Fees for permission to remove sand or to quarry.	Fixed contributions in lieu of one anna cess on excise revenue.	Government grant for village sanitation and water supply.	Government grant for primary education.	Fisheries fees and fines.	Government grant towards the construction of school buildings.	Government grant towards the construction of roads or other public works.	Total.

* Exclusive of Rs. 179-12-3 on account of contributions from other Boards.

An increase under this head occurs in all the districts of the Division and is principally due to the special grant made by Government for the improvement of village water-supply and to larger grants on account of primary education. In Kaira a special grant was made by Government towards the extension of the Civil Hospital and in Surat a contribution from Provincial Funds was granted towards the construction of the Surat-Bárdoli Road.

20. *Miscellaneous.*—The receipts amounted to Rs. 4,073 against Rs. 2,278 in the previous year and they were made up of the following items :—

	Rs.	a.	p.
Staging bungalows and serái fees...	1,426	10	0
Sale of old stores and materials	465	10	8
Other items...	2,179	6	3

The increase is chiefly due to the sum of Rs. 1,680 having been paid by the Great Indian Peninsula Railway Company on account of the ford across the Bhatsa River in the Sháhápur Táluka of the Thána District.

21. *Cattle-pound receipts.*—The receipts under this head have risen from Rs. 23,886 to Rs. 28,026, being an increase of Rs. 4,140, which is distributed over all the districts except Ahmedabad and is mainly due to the extension with the sanction of Government of the amended provisions of the Cattle Trespass Act and to the establishment of some new pounds in the Thána District.

22. *Debt.*—The increase under this head is very small and requires no explanation.

23. The incidence of income per head of population in the several districts of the Division is as under :—

Statement No. III.

24. The total expenditure during the year amounted to Rs. 12,48,414-0-1 as compared with Rs. 12,46,481-14-8 in the previous year. The following comparative table shows the principal items of expenditure :—

Heads.	Expenditure during 1893-94.	Expenditure during 1892-93.	Increase.	Decrease.

		Net increase ...	1,931 15 5	

25. *Administration.*—The expenditure under this head has fallen from Rs. 32,362-15-2 to Rs. 31,594-11-10, showing a decrease of Rs. 768. As usual the expenditure includes charges on account of establishments entertained by the different Boards under Section 38 of the Local Boards Act, as also the pay and allowances of clerks employed on Local Fund Work in the offices of the Divisional Commissioner, the Collectors, the Accountant General and the Educational Inspectors.

26. *Education.*—The comparative details of expenditure are as shown below :—

	1893-94.	1892-93.
	Rs. a. p.	Rs. a. p.
Middle Class schools	324 0 0	592 0 0
Primary schools	3,48,252 4 0	3,43,059 2 1
Grants-in-aid to indigenous schools and schools transferred to Municipalities.	17,618 1 6	20,691 2 1
Scholarships	11,359 14 0	10,324 1 10
Miscellaneous and Refunds ...	3,676 0 0	1,821 0 2
Total ...	3,81,230 3 6	3,76,487 6 2

The increase chiefly occurs in Thána and is caused by the refund to the Bhiwndi Municipality of the sum of Rs. 3,500 which was contributed by the inhabitants of the town towards the construction of the Byramji Jijibhai School-house, the amount having been originally credited to Local Funds.

27. *Medical.*—The charges under this head consist of the following items :—

	1893-94.	1892-93.
	Rs. a. p.	Rs. a. p.
Grants to hospitals and dispensaries ...	28,102 12 9	27,459 10 0
Vaccination establishment and charges ...	20,087 7 11	18,062 7 10
Sanitation charges	587 5 5	532 11 7
	48,777 10 1	46,054 13 5

The increase is distributed over all the districts, but chiefly occurs in Ahmedabad and Surat. The increase in Ahmedabad is due, in a great measure, to the grant of increased rates of pay to vaccinators, and in Surat to special grants having been made to the Dispensaries of Chikhli, Párdi and Bárdoli.

28. *Scientific and other Minor Departments.*—The following are the details of expenditure under this head as compared with the preceding year :—

	1893-94.	1892-93.
	Rs. a. p.	Rs. a. p.
Experimental cultivation	28 5 6	6 2 3
Contributions to exhibitions and fairs ...	.....	500 0 0
Veterinary charges	1,300 0 0	1,300 0 0
Bull and stallion charges	1,090 2 2	1,364 5 6
	2,418 7 8	3,170 7 9

It will be seen that there was decrease of Rs. 752 in the year under report, and it appears that it is due to the Ahmedabad District Board not making its usual contributions to the Horse Show which was not held during the year and to the decrease in the number of stallions in the same district.

29. *Stationery and Printing.*—The increase of Rs. 767 under this head occurs principally in printing charges and is distributed over the districts of Ahmedabad, Kaira and Broach.

30. *Miscellaneous.*—The charges on account of dharmshála and staging bungalow establishments maintained by Local Boards and contributions to Municipalities under Section 47 of the Act are included under this head. The decrease in the expenditure this year chiefly occurs in Surat and is accounted for by the payment last year of a large sum to the Surat Municipality on account of arrears of one anna cess realized within Municipal limits.

31. *Civil Works.*—The total expenditure under this head fell from Rs. 7,30,521 to Rs. 7,24,000, showing a net decrease of Rs. 6,521. The charges represent 58·1 per cent. of the total expenditure against 59 in the previous year. The principal items comprised in this head are detailed in the following table :—

32. The proportion of expenditure on the construction and maintenance of roads was slightly larger than last year, being 32-8 as against 31 per cent.

33. Under the head Water-supply and Water-works, the expenditure amounts to Rs. 1,77,947 against Rs. 2,02,101 in the preceding year. Details of the works will be found in Statement No. IV.

34. The following table shows the expenditure incurred in each district by Public Works and Civil agency on communications :—

District.	Public Works Agency.		Civil Agency.	
	Original Works.	Repairs.	Original Works.	Repairs.
	Rs.	Rs.	Rs.	Rs.

Total ...	1,25,209	2,01,011	19,866	63,376

35. It is satisfactory to note that about 80 per cent. of the total expenditure was entrusted to the Public Works agency. The tendency noticed last year in the Surat District of relying on civil agency no longer exists; the ratio of the expenditure in that district by Public Works agency having risen from 55 last year to 73 per cent. during the year under report.

36. *Contributions to other Boards.*—The increase in the expenditure under this head is due to the sum of Rs. 5,000 having been contributed by the District Local Board, Kaira, to the Nadiád Municipality towards the cost of the Nadiád drainage channel.

37. *Debt and Interest on debt.*—The expenditure under this head has only slightly increased and requires no explanation. In Surat a sum of Rs. 22,726 was paid as the instalment towards the Hope Bridge Loan.

38. *Balance.*—The actual balance at the end of the year was Rs. 8,93,741-2-10 as against Rs. 8,47,580-13-9 at the end of 1892-93; adding deposits, &c., the balance at the credit of the several Boards was as under:—

There is an increase in the balances of all districts except Surat, but the question of the accumulation of large balances and the measures to be adopted for preventing this is, at present, under consideration under the orders contained in Government Resolution No. 2087, dated 5th June 1894, and a special report on the subject will shortly be submitted to Government.

Statement No. IV.

41. The large expenditure in every district on the improvement of water-supply is not the least satisfactory feature of this report. It may be considered disappointing that the expenditure on village sanitation is almost nil, but as remarked last year, a great deal of steady work is being done in the rural tracts under the directions of the District Officers as evidenced by the administration reports which I have just reviewed. The special reports of the District Officers as to the sanitary reforms effected during the course of their tour are also coming in. Should the Village Sanitation Act be ever applied to any large extent, Local Funds will necessarily contribute towards the expenditure which will be incurred under the Act.

42. As required by Government Resolution No. 779, dated 30th January 1890, I submit the notes of the Executive Engineers in the Division as to the original cost, mileage and present condition of the Local Fund roads in their charges.

I have the honour to be,

Honourable Sir,

Your most obedient servant,

J. K. SPENCE,

Commissioner, N. D.

No. R.—4689 OF 1894.

FROM

W. PORTEOUS ESQUIRE,
Acting Commissioner, C. D.;

To.

THE SECRETARY TO GOVERNMENT,
General Department.

Poona, 30th October 1894.

SIR,

I have the honour to submit the Annual Report on the Administration of the Local Boards in my Division, for the year 1893-94, together with the usual statistical Statements I to IV compiled in my office in the prescribed form.

2. I regret the delay that has occurred in the submission of this report: it is partly due to the late receipt of some of the district reports, and partly to the time occupied in correspondence with district officers regarding mistakes, discrepancies and omissions in their reports. It was not till about the middle of last month that the final replies from the Collectors of two districts were received.

STATEMENT I.

3. The total area of the Division as compared with that given in last year's report shows an increase of 191·4 square miles in the Khándesh and Poona districts together; it is explained as follows:—

Khándesh.—Increase 94·4 square miles. The area of the district is not exactly known, as there are in the Sátpudás considerable tracts which have never been surveyed: It has not accordingly been always stated at the same figure. To prevent, however, inconsistencies in future, the Collector has determined to take a particular area as the fixed one and adhere to it: he puts it at 9,943·4 square miles, and he includes in it the unsurveyed tracts in the Sátpudás, but excludes Mewás estates and the Dángs.

Poona.—Increase 97 square miles. The increase is due to the fact that the area shown last year was taken from the census return for 1891, whereas the figures now shown are those communicated by the Superintendent, Deccan Revenue Survey, to the Survey Commissioner and Director of Land Records and Agriculture.

4. There was no change in the number of the Boards or in their constitution, there being, as last year, 6 District Boards and 65 Táluka Boards. Compared with the preceding year, the numbers of nominated and elected members show a decrease of one each. The total number is now 1,209 and the decrease is due to the abolition of the Municipality of Páthardi in the Shevgaon Táluka of the Ahmednagar District. Of the total number of members 6 are ex-officio; 638 nominated and 565 elected. The numbers of official and non-official members are 255 and 954 respectively as against 279 and 932 the preceding year. The variations are due to vacancies arising from the resignation, &c., of official members having been filled by the appointment of non-officials.

5. The following table shows the number of meetings held in each district, the number of official and non-official members on the Boards and the average attendance of members at meetings:—

Districts.	Number of meetings.	Members.			Average Attendance.		
		Official.	Non-official.	Total.	Official.	Non-official.	Total.
Ahmednagar	64	52	150	202	2·8	5·3	8·2
Khándesh	92	56	241	297	2·1	6·7	8·8
Násik	66	52	159	211	2·4	6·1	8·5
Poona	46	32	123	155	2·4	6·9	9·3
Sátára	84	42	166	208	2·0	6·6	8·7
Sholápur	38	21	115	136	2·0	6·0	8·0
Total ...	390	255	954	1,209	2·3	6·2	8·6

N. B.—The average attendance of members at meetings has been calculated as follows :—

For Táluka and District Boards.—Add the number of members present at all the meetings and divide the result by the number of meetings and the resulting figure is the average attendance.

For District average.—Add the figures of average attendance of the several Boards and divide the total by the number of those Boards.

6. It will be seen that the total number of meetings was 390 as compared with 386 the previous year. The provisions of the law regarding the holding of half-yearly meetings were complied with by all the District Boards. The Táluka Boards held a sufficient number of meetings except that of Mán in the Sátára District which held one only.

7. As compared with last year, the average attendance of official members has remained almost stationary in all the districts. The average attendance of non-official members, however, has declined somewhat in Khándesh and improved in Nasik: in the other districts it has remained almost the same as before.

8. On the whole the average attendance for the Division remains practically without change.

Statement II—Income.

9. The total income of the several Boards from all sources amounted to Rs. 14,46,538-10-10 against Rs. 13,77,039-5-9 the preceding year, showing an increase of Rs. 69,499-5-1. Adding to the total income the balance of Rs. 9,10,426-15-2 at the commencement of the year, the sum available for expenditure during the year was Rs. 23,56,965-10-0 against Rs. 22,68,782-11-7. The following table shows the income under the various heads :—

Heads.	Income during 1893-94.	Income during 1892-93.	Increase.	Decrease.

I. Land Revenue.—The receipts under this head represent the sale-proceeds of trees, grass, &c., the total realizations on account of which amounted to Rs. 2,161-7-3 as against Rs. 2,442-2-4 the previous year. The items are always of a fluctuating nature and the small decrease needs no explanation.

10. *VI. Provincial Rates.*—The income under this head is derived from the net proceeds of the one-anna cess levied under the Bombay Local Funds Acts and constitutes the principal source of revenue. The total realizations compared with the figures of the past year show an increase of Rs. 22,576-14-9,

The following table shows the proportion of the net receipts from the one-anna cess to the total income, and the incidence of the cess per head of population :—

Year.	Total Income.	Net Revenue derived from One-anna Cess.	Percentage of Column 3 to Column 2.	Incidence of One-anna Cess per head of Population.
	Rs. a. p.	Rs. a. p.		Rs. a. p.
1893-94	14,46,538 10 10	8,14,173 5 6	56·3	0 2 1
1892-93	13,77,039 5 9	7,91,596 6 9	57·5	0 2 0

The increase in the receipts has taken place in the districts of Khándesh, Násik, Sátára and Sholápur and is attributed by the Collectors to increased cultivation, introduction of revision survey rates and the collection of arrears of past years.

11. *XVII. Police.*—The total receipts amounted to Rs. 1,14,155-9-8 as compared with Rs. 1,06,352-4-7 the previous year, showing a net increase of Rs. 7,803-5-1. The increase is noticeable in all the districts except Násik and is due to the receipts under the Cattle Trespass Act being larger than in the preceding year.

12. *XIX. Education.*—The income rose from Rs. 47,563-1-1 to Rs. 50,609-13-5. The increase occurs principally in the amount of school-fees and in contributions. The total receipts are made up as follows :—

	Rs.	a.	p.
(1) School-fees	43,131	8	6
(2) Contributions	6,575	4	8
(3) Miscellaneous	903	0	3

The amount entered under the minor head "Miscellaneous" comprises the following items :—

(16) Reward received by school-masters credited ...	4	0	0
(17) Refund of travelling allowance and carriage hire ...	18	3	0
Total ...	784	13	8

13. *XX. Medical.*—The total receipts amounted to Rs. 5,943-14-9, and shew an increase of Rs. 1,903-3-3 over the figures of the previous year (Rs. 4,040-11-6). The increase is due to the transfer of the dispensary balances to Local Boards agreeably to the instructions contained in Government Resolution No. 4352 of 12th December 1893, Financial Department.

The amount Rs. 22-4-4 entered under the sub-head "Other Receipts" is comprised of the following items:—

		Rs.	a.	p.
(1)	Refund on account of pay and travelling allowance to Vaccinators	17	14	3
(2)	Value of lancet lost by a vaccinator	2	10	10
(3)	Sale-proceeds of old boxes and records	1	10	9
(4)	Do. of letter weighing scale	0	0	6
	Total ...	22	4	4

14. *XXI. Scientific and other Minor Departments.*—The revenue again shews a falling off, the total amount realised being Rs. 1,187-1-8 against Rs. 1,933-6-5 the preceding year. The receipts appear against Khándesh, Násik, Poona and Sholápur. In Khándesh, they represent the interest on the endowments of the Máheji Exhibition Fund. In Násik the amount of Rs. 296-3-0 appearing against the Táluka Local Board of Niphád is on account of the ground-rent realised at Naitata during the annual Khandoba Fair. In Poona the amount is made up partly of the sale-proceeds of bull and buffalo stallions and partly of the proceeds of sweepings. In Sholápur, the receipts are on account of garden produce and of the implements, &c., of the Motibág Farm. The decrease occurs mainly in Sholápur and is due to the abolition of the agricultural farm and the agricultural class there.

15. *XXV. Miscellaneous.*—The receipts amounted to Rs. 2,327-1-4 as contrasted with Rs. 2,120-5-1 last year, and are made up as follows:—

		Rs.	a.	p.	Rs.	a.	p.
(1)	Sale of old stores and materials				54	2	6
(2)	Staging bungalow fees				915	8	0
(3)	Sérái fees				18	8	0

					1,338	14	10
	Total ...				2,327	1	4

The small increase of Rs. 206-12-3 calls for no explanation, as the items are always of a fluctuating nature.

16. *XXXII. Civil Works.*—The receipts rose from Rs. 1,82,950-15-4 to Rs. 1,92,156-11-2. The increase is mainly due to larger receipts from "Tolls on Ferries and Roads." The total receipts are made up thus:—

		Rs.	a.	p.
(1)	Tolls on Ferries and Roads	1,72,942	9	11
(2)	Rent of buildings and lands	195	0	0
(3)	Sale of stones and materials	576	12	5
(4)	Miscellaneous	335	10	0
(5)	Contributions	18,092	10	10
(6)	In charge of Public Works officers	14	0	0
	Total ...	1,92,156	11	2

The amount appearing under the sub-head "Miscellaneous" comprises the following items:—

		Rs.	a.	p.
(1)	Sale-proceeds of loppings of road-side trees ...	203	2	9
(2)	Do. of tools and plant	1	1	0
(3)	Refund of excess payment	23	14	1
(4)	Excess in cash balance	0	0	3
(5)	Refund of the amount of cheques drawn on Local Fund works	24	12	0
(6)	Refund of wages to labourers on roads	11	4	0
(7)	Amount recovered from a contractor for failing to do work satisfactorily	70	0	0
(8)	Sale proceeds of crops in Dharmshála compounds ...	1	7	11
	Total ...	335	10	0

17. *Contributions.*— The receipts amounted in all to Rs. 2,63,589-2-1 against Rs. 2,32,305-4-8 the preceding year, thus shewing an increase of Rs. 31,283-13-5. The increase appears in all the districts except Khándesh and is due to increased Government grants for primary education, for water supply and for the construction of school buildings; and in Poona to some extent also to increased receipts from sand and quarry fees.

The following table gives the details of Provincial contributions:—

Districts.	Fees for permission to remove sand or to quarry.	Proceeds from fees, fines and penalties under Bombay Act VIII of 1866.	Fixed contribution in lieu of one-anna cess on excise revenue.	Government grant for village sanitation and water-supply.	Government grant for primary education.	Government grant for special instruction. 18. *Debt.*—The large decrease is accounted for by the fact that the instalment of Rs. 5,500 on account of the loan of Rs. 13,000 for the construction of a bridge over the Sud Nála on the Wadgaon Shikrápur Road, received in the preceding year was the last of its kind, and there was no occasion this year for any fresh loan.

Statement III.

19. The total expenditure of the several Boards amounted to Rs. 13,94,756-12-10 as against Rs. 13,58,304-12-5 in 1892-93 and shows a net increase of Rs. 36,452-0-5. The expenditure incurred in the two years is contrasted in the following table:—

21. 18. *Administration.*—The expenditure amounted to Rs. 53,910-2-7 against Rs. 43,880-2-4 the previous year, and shows an increase of Rs. 10,030-0-3. The details are as follows:—

	Rs. a. p.
(1) Charges on account of establishments maintained by the several Boards	24,703 3 9
(2) Charges on account of office contingencies ...	5,301 0 11

Total ...	53,910 2 7

The increase appears principally in Khándesh, Poona and Násik. In Khándesh and Násik, it is on account of item No. 3 and in Poona on account of item No. 1, but no specific explanation of the variations has been furnished by the Collectors.

22. 22. *Education.*—The total outlay incurred during the year amounted to Rs. 4,12,691-13-2 or Rs. 4,635-1-2 more than in the year before. The increase occurs in every district except Khándesh and is due to (*a*) increase in the pay of school-masters and servants, (*b*) increase in the number of schools, and (*c*) award of new scholarships in primary and special schools.

The following are the details of the amount entered under the sub-head "Miscellaneous":—

No. 3667 OF 1894.

FROM

THE HONOURABLE J. NUGENT, I.C.S.,
Commissioner, S. D.;

To

THE ACTING CHIEF SECRETARY TO GOVERNMENT,
Revenue Department,
Bombay.

Belgaum, 26th August 1894.
Despatched 7th November 1894.

SIR,

I have the honour to submit the Annual Report on the Administration of the Local Boards in the Southern Division for the year 1893-94. I send it without waiting for the information called for from the Collectors concerning the alterations rendered necessary by the corrections ordered by the Accountant General, as in their Resolution No. 2977 received by me on the 16th instant Government have directed that the Commissioners should send their divisional reports and submit the revised figures subsequently.

2. I have been able to ascertain from the Accountant General that the difference between the balances reported by the Collectors and those arrived at from his accounts amounts to Rs. 15,905-4-5, but Statement No. III cannot be corrected pending the receipt of particulars from the Collectors as to the column in which the alterations are to be made.

STATEMENT No. I.

3. The area and population shown in Statement No. I are according to the Imperial Census of 1891. The number of Boards is the same as in the previous year, but the territorial areas pertaining to the Táluka Boards of Sirsi, Siddápur and Yellápur in the Kánara District have undergone a change owing to the re-distribution of villages, sanctioned by Government in their Resolutions mentioned in the margin. These orders were received eight months after the programme of the works to be constructed during the year was framed, and the funds necessary for the purpose were allotted. I have, therefore, thought it proper to enter the three Boards and their jurisdictions in Statement No. I as they were originally constituted, and to exhibit in the subjoined table their areas and populations according to the altered jurisdictions :—

6 District Boards.
50 Táluka Boards.

Government Resolution No. 8193 of 8th November 1893.
Government Resolution No. 8948 of 5th December 1893.

Name of Táluka.	Before the Change.		After the change.	
	Area in Square Miles.	Population.	Area in Square Miles.	Population.
	Sq. m.	No.	Sq. m.	No.
Sirsi	686·3	56,406	331·21	41,733
Siddápur	299·8	39,096	493·56	48,170
Yellápur	596·4	34,309	757·73	39,908
Total ...	1,582·5	129,811	1,582·5	129,811

4. The number of members serving on the Boards was identical with that in 1892-93, *viz.*, 900. Of these 698 were non-official and 202 official, the corresponding figures for the preceding year being 706 and 194.

The number of meetings held by the several Boards was 322 as compared with 299 in 1892-93. Twenty of the meetings were held by the District Boards and the remaining 302 by the Táluka Boards. The rule requiring the District Boards to hold half-yearly meetings was duly observed by all of them. The average attendance at their meetings is given in the following statement :—

District Board.	1893-94.		1892-93.	
	Total Number of Members.	Average attendance.	Total Number of Members.	Average attendance.
Belgaum	19	12	19	14
Bijápur	19	10·9	19	8·7
Dhárwár	31	14·6	31	11
Kánara	17	8·6	17	7·5
Kolába	17	11	17	12·3
Ratnágiri	21	8·8	21	7·5

Four of the six Boards show an improvement as compared with the year 1892-93, especially those of Dhárwár and Bijápur. The average attendance in Kolába, Belgaum and Bijápur was fairly satisfactory. In Kánara and Ratnágiri much improvement in this respect cannot be expected as the long distances to be traversed and the want of good roads constitute serious impediments to the punctual attendance of many of the persons composing the Boards.

The attendance at the Táluka Local Boards was on the whole fair. The Chikodi Board was singled out last year as showing the lowest average attendance in regard to both its official and its non-official members. Some improvement in regard to the former is displayed in the year under review; but unfortunately the non-official element was even more conspicuous by its absence in 1893-94 than in the preceding year. Other Boards, where the none official members show a similar lack of interest, are those of Hungund, Vengurla and Honávar. The marginal table gives the required particulars concerning them.

Name of Táluka Local Board.	1892-93.				1893-94.			
	Official		Non-official.		Official.		Non-official.	
	Number of Members.	Average.	Number of Members.	Average.	Number of Members.	Average.	Number of Members.	Average.
Hungund ...	3	2	14	4	3	2·1	14	4·6
Vengurla ...	3	2	10	6·8	3	1·7	10	3·8
Honávar ...	3	1·16	11	4·6	3	1·14	11	3·8

The average attendance at each meeting for the whole Division as well as for each district, both for the year under report and for 1892-93, is given below :—

District.	1893-94.		1892-93.	
	Official.	Non-official.	Official.	Non-official.
Belgaum	2·83	4·73	2·5	5·2
Bijápur	1·9	6·3	1·9	5·51
Dhárwár	2·12	6·05	2·41	5·75
Kánara	1·5	4·6	1·44	4·64
Kolába	1·6	7·1	2·06	7·51
Ratnágiri	1·4	5·8	1·6	5·6
Southern Division...	1·87	5·76	1·54	5·5

The average for the district is calculated by ascertaining in the first instance the total number of members actually present at the several meetings,

which is done by multiplying the average attendance given for each Board by the number of meetings held by that Board and then dividing the sum total of attendance by the total number of meetings held in the district. The same course is followed in finding the average for the Division. As exhibited in the above table, the results for the Division show a slight improvement over the year 1892-93. In order to facilitate comparison I have entered at the foot of each of the Statements Nos. I to IV the Divisional totals under the various heads for the year 1892-93.

STATEMENT No. II.

5. The year opened with a Divisional balance of Rs. 6,18,022-5-0. The subjoined table contrasts the receipts of the year under report with those of the preceding year under the several heads of income :—

Heads.	Income during 1893-94.	Income during 1892-93.	Increase.	Decrease.

		Net increase ...	63,170 15 10	.....

It appears that (1) the one anna cess contributes 54·4 per cent., (2) toll receipts on roads and ferries 11·9 per cent., (3) contributions from Provincial Funds 24·2 per cent., (4) fee receipts 6·3 per cent., and (5) the remaining sources taken together 3·2 per cent.

The variations under the several heads are explained below :—

I Land Revenue.—The income under this head consists of the sale-proceeds of trees, grass, &c. The greater portion of the increase of Rs. 246-1-3 occurred in the Dhárwár District.

VI Provincial Rates.—The realizations under this head comprise the net proceeds of the one anna cess. The rise of Rs. 4,179-12-8 was the result of the introduction of the new survey rates in some of the villages of the Panvel and Devgad tálukas.

XVII Police.—The receipts under this head represent the net proceeds of the working of the Cattle Trespass Act. The augmented receipts amounting to Rs. 7,294-14-5 were due to a corresponding increase in the number of cattle impounded.

XIX Education.—The revenue realized under this head is exclusive of the one-third share of the proceeds of the one anna cess. The small falling off of Rs. 1,656-15-9 was mainly caused by a reduction in the receipts of the work-shop branch of the Ratnágiri School of Industry. The details of the income under this head are given below :—

(*a*) Rs. 51 on account of fees from the students of the drawing class in the Ratnágiri School of Industry.

(*b*) Rs. 201-4-0 on account of fees from boys attending Local Boards Secondary Schools in the Belgaum and Dhárwár Districts (Rs. 21 "Middle Schools Examination Fees" in Belgaum and Rs. 180-4-0 "Middle School Fees" in Dhárwár).

(*c*) Rs. 58,910-13-1 on account of fees from children attending Local Boards Primary Schools against Rs. 56,557-13-11 in 1892-93.

(*d*) Rs. 514-14-9, contributed by private persons towards the maintenance of Local Boards Primary Schools.

(*e*). Rs. 12,535-15-0 derived chiefly from the sale-proceeds of articles of furniture prepared in the workshop branch of the Ratnágiri School of Industry.

Government Resolution (Financial Department), No. 3298 of 23rd September 1893.
Government Resolution (Financial Department), No. 3825 of 4th November 1893.
Government Resolution (Financial Department), No. 4352 of 12th December 1893.

XX—Medical.—The receipts under this head are composed of the balances of Dispensary Funds transferred during the year from "Excluded" to "Incorporated" Local Funds under the orders of Government quoted in the margin.

XXI.—The revenue collections under this head consisted of the following items:—

		Rs.	a.	p.
Belgaum District...	(1) Veterinary receipts	68	8	0
	(2) Sale-proceeds of articles belonging to the agricultural farm at Belgaum abolished on the 1st April 1893	223	14	3
	Total ...	292	6	3

XXV.—The increase of Rs. 645-14-6 has occurred under various items of a fluctuating nature such as Staging Bungalow fees, produce of fruit trees, &c.

XXXII—Civil Works.—The aggregate increase amounts to Rs. 15,589-3-3 which has principally occurred under the following sub-heads:—

	Increase, Rs.	a.	p.
(1) Tolls on roads and ferries	6,662	15	3
(2) Contributions received from Municipalities and private persons	7,923	0	10

The total revenue of Rs. 1,43,789-11-0 under Civil Works in charge of civil officers was composed of the following items:—

(1) Rs. 99,952-10-9, tolls on roads and ferries.
(2) „ 568-2-0, rent of Local Boards lands and buildings.
(3) „ 580-0-0, sale-proceeds of Local Boards buildings and other property.
(4) „ 343-7-0, sale-proceeds of stores and materials.

Of the total amount of Rs. 42,345-7-3 all but Rs. 5,054 were obtained from private contributions, the largest amount raised being in the Dhárwár Collectorate.

The causes of increase and decrease under each head are detailed below :—

18.—*Administration.*—The expenditure under this head amounted to Rs. 38,999-4-1 and was composed of the following items :—

(*a*) Rs. 15,334-10-5 were spent on the salaries of establishments and Rs. 4,282-4-4 on contingencies by the several Boards as contrasted with Rs. 14,466-5-2 and Rs. 4,485-13-8 in the preceding year. The increase under "Salaries of Kárkuns" is due to the payment during the year of arrears of pay for 1892-93 as also to the entertainment of a Local Fund sub-overseer and a peon for the Karjat táluka in the Kolába Collectorate.

(*b*) Rs. 19,382-5-4 were spent during the year as compared with Rs. 20,659-6-1 in 1892-93 on account of establishments in Government offices of control, *viz.* those of the Collectors, the Educational Inspector, S. D., and the Commissioner, S. D. This expenditure includes also fees paid to the Accountant General for his audit of the Local Fund Accounts. The difference of Rs. 1,277-0-9 is attributable to the non-payment during the year of the cost of the Local Fund branch office establishment of the Commissioner, S. D., as the communication from the Accountant General was received after the accounts were closed.

22.—*Education.*—The gross expenditure under this head aggregated Rs. 4,24,591-12-7 as compared with Rs. 4,24,810-11-0 for the previous year. The slight decrease of Rs. 218-14-5 requires no explanation. The details under this head are given below:—

(*a*) In the Division only one technical school, the Ratnágiri School of Industry, is maintained out of Local Funds. The charges for its establishment amounted to Rs. 9,156-13-4.

(*b*) The charges on account of one secondary school maintained in the Dhárwár District came to Rs. 180-13-3.

(*c*) Rs. 3,62,544-5-2 were expended on the pay of teachers, servants, &c., employed in the Local Boards primary schools, the charges for the same in 1892-93 being Rs. 3,55,600-1-2. The increase of Rs. 6,944-4-0 is due to an increase sanctioned in the salaries of the hitherto low-paid teachers in the Belgaum and Dhárwár districts and to the entertainment of trained teachers and additional assistant masters in the Kánara District. The number of primary schools maintained by the Local Boards during the year under report as well as in the previous year is given in the following statement:—

(*e*) The expenditure on scholarships awarded to students attending training colleges, special schools and middle and primary schools, rose from Rs. 5,483-3-0 to Rs. 5,813-8-11.

(*f*) The charges under the sub-head "Miscellaneous" sank from Rs. 36,880-6-5 to Rs. 31,361-14-1. The decrease has occurred in small sums under various sub-heads and does not call for any comment.

24. *Medical.*—The total expenditure under this head amounted to Rs. 45,048-11-7, the corresponding figures of the preceding year being Rs. 41,369-10-4. The details in respect of the former item are given below :—

26.—*Scientific and other minor Departments.*

The expenditure under this head fell from Rs. 3,981-3-4 to Rs. 2,678-7-11. The details are :—

The decrease of Rs. 608 is due "to the purchase of less articles of furniture during the year under report." The balance of Rs. 286-9-6 is on account of the entertainment of a temporary veterinary graduate for the treatment of cattle-disease which was prevalent in the Kolába District.

Debt and Interest on Debt.—Of the total amount under "Debt" of Rs. 6,666-15-0 the Bijápur District Local Board paid Rs. 2,748-8-2 in liquidation of the loan of Rs. 50,000 granted by Government to that Board to meet the expenditure in the famine of 1876-77 on the Begum Tank at Bijápur. This loan is being repaid in half-yearly instalments on the 31st December and 30th June of each year; the balance still due to Government on the 30th June 1894 was Rs. 21,701-11-0. The balance of Rs. 3,918-6-10 was paid by the Ratnágiri District Local Board in repayment of the loan made to them by Government for the construction of the Amba-Ghát and subsidiary roads.

Of the aggregate amount of Rs. 3,259-2-8 on account of interest, Rs. 1,069-3-6 and Rs. 2,189-15-2 were paid by the Bijápur and Ratnágiri District Local Boards respectively as interest on the loans mentioned above.

Balances.—The total of the balances to the credit of the Boards at the end of the year amounted to Rs. 6,44,519-12-6 (*i.e.* to slightly over fifty per cent. of their annual income) against Rs. *6,18,018-3-11 in the preceding year. According to the figures verified by the Accountant General on the 13th instant, however, the balances of the District Boards aggregate Rs. 6,28,614-8-1, and there is thus a difference of Rs. 15,905-4-5.

* or more correctly Rs. 6,18,022-5-0.

The following statement gives the details regarding the income and closing balance of each district for the last two years:—

7. On the 5th June last Government in their Resolution No. 2087 (General Department) issued orders as to the measures to be adopted by Local Boards to prevent the accumulation of excessive balances and the matter has engaged the attention of the Collectors. The large balances which appeared last year in the Bijápur District have since been utilized for the improvement of the water-supply with the aid of a liberal grant from Provincial Funds. The Collector of Dhárwár reports that the balances in his district are so regulated as to prevent the Boards overdrawing their accounts with Government. There is generally an increase in the balances of all the Boards in the Kánara District, but the Collector reports that most of this money will be expended during the current year. In the case of the Supa Táluka Local Board the excess is caused by the contribution of Rs. 5,000 made by the Ulvi Municipality at the close of the year for a road from Ulvi to Kumbhárváda. In the Kolába District, the increase in the balances of the Táluka Local Boards of Alibág, Pen, Panvel, and Karjat is merely nominal, consisting as it does of provisions in the budget which lapsed because the works for which they were made were not carried out during the year. The Collector of Ratnágiri reports that all the Táluka Local Boards except that of Vengurla have more than sufficient balances at their credit and that he is taking steps to reduce them.

The question will, however, be more fully dealt with in the report called for by Government in their Resolution quoted above.

Statement IV.

8. The following table summarizes the expenditure incurred under the principal heads of village sanitation :—

Year.	Improvement of water-supply.	Improvement of village sites, &c., including removal of rank vegetation.	Conservancy of towns and villages.	Total expenditure on sanitary objects.	Remarks.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Decrease over 1892-93 ...	28,811 11 9	665 1 10 Increase.	22 1 11	28,168 11 10	

The expenditure incurred on the improvement of the water-supply in 1891-92 and 1892-93 was in connection with the scarcity that then prevailed in the above-ghát districts of this Division. Comparing, therefore, the figures of the year under report with those of another normal year, *i.e.*, 1890-91, there would seem to have been greater attention paid to all the heads of village sanitation.

The following table shows the extent to which the several districts shared in the increased expenditure :—

The table given above shows that the highest percentage of expenditure on education was in the Ratnágiri District, on medical objects in Kánara, and on the construction of Public Works in Belgaum.

9. The following are the details of expenditure on the improvement of water-supply :—

Of the six districts, Ratnágiri, Kánara, and Kolába to a great extent, have a good supply of potable water. Above the ghâts the District of Bijápur is in

this respect the worst off, especially in a year of scanty rainfall. During the year under report a sum of Rs. 50,000 was allotted to this Division by Government from Provincial Funds expressly for the improvement of water-supply on the usual condition that the District Boards provided double the amount offered by Government. Owing to the above condition the District Board of Bijápur was not able to avail itself of more than 15,000 rupees without prejudice to the equally important claims of other branches of its administration.

10. It is somewhat disappointing that in a report specially dealing with the working of the Local Boards Act some of the Collectors should omit to express any opinion on the matter. As far as can be gathered from the Revenue Administration Reports received during the last fortnight such general complaints as are made refer to insufficient allotments made by the District to the Táluka Boards and the lack of supervision on the part of the non-official members over petty works constructed through the agency of the Boards and the want of intelligent and active interest in their duties displayed by those members. The subjoined statement shows how the funds are distributed in the several districts:—

Name of the District Local Board.	Amount of one anna cess at the disposal of the Board, exclusive of the ¼ portion on account of Education.	No. of Táluka Local Boards.	Amount allotted to Tálukas,	Average amount per Táluka,	Percentage of column 4 on column 2.

Ratnágiri ...	43,579 2 11	9	21,676 3 11	2,408 7 6	49·7
		50			

It appears that the distribution was very satisfactory both in Kánara and Ratnágiri, very fair in Dhárwár and Bijápur, small in Kolába and entirely inadequate in Belgaum. It is contrary to reason to suppose that Táluka Board members can take any keen interest in the functions which devolve on them when the amount of money at their disposal is so limited and the works they can undertake so few and petty. I purpose inviting the attention of the Collectors of Belgaum and Kolába to the necessity for showing greater liberality in the assignment of funds to the Táluka Boards.

As regards the other complaint, it is almost impossible to expect any reform so long as the people at large show practically no interest in Local Self-geovernment, as is evinced in the scanty attendance of the voters at the last General election. The members returned are consequently equally indifferent. In February last I disposed of a case in which I found that a work had been begun by a Táluka Board although its construction was not sanctioned by the District Board, and in three cases works were certified by a non-official member as having been completed which were unfinished months after the date of the completion certificate, and which the member had never visited although one of them was in his own village. It is not a gratifying circumstance that out of the 698 non-official members two only should be specially mentioned by the Collectors as devoting part of their time and energies to the administration of the Boards. One of them is Mr. Narayan Ramnaya Udiavarkar, whose good work has already been recognized by Government by the bestowal on him of the title of Ráo Sáheb, and the other is Mr. Vishwanath K. Joglekar, Vice-President of the Táluka Local Board of Karajgi in the Dhárwár District.

Other matters such as the improvement of the water-supply, sanitation in eral, medical aid and education, commanded a very fair amount of attention the part of all the Boards in the Division.

I have the honour to be,

Sir,

Your most obedient Servant,

J. NUGENT,

Commissioner, S. D.

P.S.—With reference to para. 2 of this letter I have now to add that the balance as ascertained from the Accountant General is Rs. 6,28,614-8-1. This differs from that given in Statement No. III by Rs. 16,110, which is made up (as per margin) of the permanent advances drawn by the Boards under Section 50 of the Local Boards Act. The aggregate balance of Rs. 6,44,724-8-1, shown in Statement No. III, is now obtained by making the necessary corrections in Statement No. III.

No. 2390 of 1894.

REVENUE DEPARTMENT.

FROM

H. E. M. JAMES, ESQUIRE, I. C. S.,
Commissioner in Sind;

To

HIS EXCELLENCY THE RIGHT HONOURABLE LORD HARRIS, G.C.I.E.,
Governor and President in Council,
Bombay.

Commissioner's Office, Karáchi, 27th October 1894.

MY LORD,

I have the honour to submit the Annual Report on the Administration of the Local Boards in the Province of Sind for the year ending 31st March 1894, together with the Statistical Tables Nos. I to IV compiled in my office.

2. The following table gives the dates of receipt of reports from the Collectors and Deputy Commissioners and of their final replies to references made for further information or explanation :—

District.	Date of receipt of	
	Report.	Final reply.
Karáchi	13th July 1894 ...	
Hyderabad	17th July 1894 ...	
Shikárpur	21st August 1894 ...	22nd October 1894.
Thar and Párkar	6th July 1894 ...	
Upper Sind Frontier	26th June 1894 ...	

3. Owing to the late receipt of the report of the Collector of Shikárpur, the general report for the Province of Sind could not be submitted by the 15th August 1894. The Collector's attention has been again drawn to the orders of Government, and I trust greater punctuality will be observed in future.

STATEMENT No. I.—CONSTITUTION OF BOARDS AND MEETINGS.

4. No change was made in the number of Local Boards during the year under report, there being 5 District Boards and 46 Táluka Local Boards in the Province. The former were presided over by the Collectors and Deputy Commissioners of their respective districts and the latter by the Assistant Collectors and Deputy Collectors in charge of the tálukas.

5. The elective system remained in force in the districts of Karáchi, Hyderabad and Shikárpur, in its entirety and the Boards of the Thar and Párkar and Upper Sind Frontier Districts consist, as explained last year, of nominated members only. During the year the 4th triennial elections of the several Táluka Local Boards in the Karáchi District were held. The information required by Government Resolution No. 2617, dated 1st September 1887, regarding the elections held in these Táluka Local Boards is given in the subjoined table :—

District.	Names of Boards.	Number of persons entitled to vote.	Number of voters who attended the Poll.	Percentage of voters who attended the Poll to the total number of voters.
Karáchi.	Karachi-Sákro Táluka Board... ...	343	65	18·25
	Tatta Do.	417	92	22·06
	Ghorabari Do.	345	96	27·82
	Sháhbandar-Jati Do.	538	174	32·34
	Sujáwal-Mirpur Batoro Do.	691	214	30·96
	Kotri-Mánjhand Do.	427	234	54·80
	Shewán Do.	542	103	19·
	Dádu Do.	824	293	35·56
	Johi Do.	746	243	32·57

6. The area and population of the Province remained unchanged. There is, however, a difference in the area and population figures of the Karáchi and Shikárpur Districts as compared with those shown in the previous year's returns, which is due to the transfer of sixteen villages from Táluka Kákar in the latter to Táluka Johi in the former district during the year under report.

7. As compared with the previous year, there is an increase of one each in the number of elected and nominated members due to the election of a member for the alienated villages of the Karachi, Sákro Táluka Board, and the nominations of an additional member, *viz.*, the Assistant Collector, Nára Valley Division, to the District Board of Thar and Párkar under Government Resolution No. 2189, dated 21st June 1893.

8. The total number of meetings held by the several Boards was 358 against 362 in the previous year. All the District Boards complied with the provisions of the law regarding the holding of half-yearly meetings. The Táluka Boards held a sufficient number of meetings and the average attendance was more than 50 per cent. of the number of members except in the case of the following Boards.

Tatta, Kotri-Mánjhand and Johi ... ...In the Karáchi District.

Hyderabad, Guni, Badin, Tando Bágo, Dero Mohbat, Mirpur Khás, Tando Allahyar, Hála, Moro and Kandiáro ... ... } In the Hyderabad do.

Rohri, Ghotki, Ubauro and Nasirabad .....In the Shikárpur do.

The average attendance was, however, not below one-third of the number of members except in the Táluka Board of Hyderabad where the unsatisfactory attendance is reported to have been due to the illness of several members. No explanation has, however, been assigned in the case of the other Boards, where the average attendance was less than 50 per cent., but it may be attributed partly to the absence of some members who generally live in villages at a distance from the head-quarter stations. The average attendance for each of the several districts has been struck by totalling the number of members (official and non-official separately) who attended each of the total number of meetings of the District and Táluka Boards held during the year and dividing the sum by the total number of meetings held.

Statement II.

9. The total income of the several Boards amounted to Rs. 8,40,019-12-5 as against Rs. 7,73,926-15-0, shewing an increase of Rs. 66,092-13-5. The balance to the credit of the Boards from the preceding year was Rs. 3,61,957-12-11, and the sum available for expenditure was therefore Rs. 12,01,977-9-4 as against Rs. 12,23,633-11-3. The principal items of income are shown in the following table:—

10. The receipts under the head Land Revenue, which represent sale proceeds of trees, grass, &c., in the Hyderabad, Shikárpur and Upper Sind Frontier Districts, amounted to Rs. 6,278-2-2 as against Rs. 3,357-6-11 in the previous year, showing an increase of Rs. 2,920-11-3 which is due to increased sale of trees and loppings.

11. *VI.—Provincial Rates.*—The receipts under this head comprise the net proceeds of the one-anna cess levied under the Bombay Local Funds Act and fluctuate with the land revenue. They amounted to Rs. 5,01,846-11-10 as against Rs. 4,45,757-4-8 in the previous year, showing a net increase of Rs. 56,089-7-2 occurring in the Karáchi, Hyderabad, Shikárpur and Thar and Párkar Districts. The increase in the Karáchi and Hyderabad Districts is attributed to increase in

cultivation owing to favourable and timely rainfall. In the Shikárpur District, the increase is ascribed to the realizations of the 5 per cent. jágir cess which was not levied in 1892-93 owing to correspondence regarding the method of assessing it, while that in the Thar and Párkar District is due to the recovery of outstandings of former years. The Upper Sind Frontier District shows a decrease of Rs. 4,880-10-0 attributable to failure of crops on the Desert Canal.

12. *XII.—Interest.*—The sum of Rs. 817-15-2 shown under this head represents interest on the closing balances of certain defunct minor Municipalities in the Thar and Párkar District which were abolished in 1878, their balances being made over to the Local Funds on condition that the latter would defray the requisite expenditure on certain specified objects.

13. *XVII.—Police.*—The receipts under this head represent realizations under the Cattle Trespass Act, and amounted to Rs. 23,553-13-2 against Rs. 26,340-14-3 in the previous year, showing a decrease of Rs. 2,787-1-1 occurring in the Shikárpur, Thar and Párkar and Upper Sind Frontier Districts. The decrease in the Shikárpur District is due partly to the opening of a new pound and a falling off in pound receipts in some places and partly to increased expenditure under the heads "Petty Construction and Repairs" and "Contingencies," while that in the Thar and Párkar District is attributable to a smaller number of cattle being impounded on account of plentiful supply of fodder in the Desert tálukas and to a decrease in cultivation in consequence of the closing of the Nára Supply Channel to deepen it and make alterations in the Head Regulator. The decrease in the Upper Sind Frontier District is trifling and calls for no comment.

14. *XIX.—Education.*—The sum of Rs. 11,891-10-6 entered under this head comprises the following items:—

	Rs.	a.	p.
1. Fees received from students attending schools ...	1,604	13	3

The last item represents contributions received from certain Local and Municipal Boards towards the maintenance of certain educational institutions which have been shown here in compliance with the instructions contained in paragraph 2 of Government Resolution No. 2547, dated 22nd July 1893. The decrease of Rs. 13,415 as compared with the previous year's figures is chiefly due to grants amounting to no less than Rs. 15,000 having been made by the District Boards of Karáchi and Shikárpur towards the building of the Female Training College in 1892-93.

15. *XX.—Medical.*—The receipts shown under this head comprise the following items:—

	Rs.	a.	p.
1. Hospital and Dispensary receipts	8,182	0	9
2. Contributions	254	0	0
3. Miscellaneous—Other receipts	230	5	11
Total ...	8,666	6	8

The receipts under the first head represent the dispensary balances transferred to the Local Boards under Government Resolutions No. 3298, Financial Department, dated 23rd September 1893, and No. 4352, Financial Department, dated 12th December 1893, while those under the second head represent contributions made by Municipalities towards the cost of Vaccination establishments. The sum of Rs. 230-5-11 is of a miscellaneous nature and includes Rs. 220 refunded by certain Sanitary Boards in the Thar and Párkar District on account of contributions paid to those Boards but subsequently withdrawn.

16. *XXI.—Scientific and other Minor Departments.*—The receipts under this head are composed of the following items and show a decrease of Rs. 760-9-10 as compared with those of the previous year:—

	Rs.	a.	p.
1. Botanical and other public garden receipts ...	5,221	0	4
2. Veterinary receipts	53	12	1
3. Receipts on account of Experimental cultivation ...	2,364	15	3
4. Fairs and Exhibitions	1,233	9	6
5. Miscellaneous	142	13	1
Total ...	9,016	2	3

There is a small increase in the garden receipts, buf a decrease under the head "Fairs and Exhibitions," due to the inclusion in 1892-93 of realizations on account of two annual fairs held at Lal Udero in the Hyderabad District and to the Shah Yakik and other fairs in the Karáchi District not having been held until April 1894 after the close of the financial year.

17. *XXV.—Miscellaneous.*—The revenue under this head amounted to Rs. 8,155-1-0, as compared with Rs. 6,078-4-4 in the previous year. The receipts include Rs. 2,436-15-6 on account of staging bungalows and serái fees, the remainder being sale-proceeds of land produce, old stores and materials, fruit of trees, and recoveries on account of over-payments, &c.

18. *XXII.—Civil Works.*—The realizations under this head amounted to Rs. 51,368-13-10 against Rs. 26,978-3-5 in the previous year. Details are given in the sub-joined table :—

Net increase ...							24,390	10	5

There is an increase of Rs. 24,390-10-5 which is common to all the districts. It is attributable to the receipts on account of steam ferries at Kotri-Gidu, Syedpur, Tanka and Sukkur-Rohri being much larger than in the previous year owing chiefly to the non-payment in 1892-93 of the receipts on account of the Kotri-Giddu ferry by the Railway Department as explained in the report for that year.

The sum of Rs. 1,650 shown under the head "Sale of buildings and other property" represents the proceeds from the sale of a garden at Khairpur-Dherki and of the staging bungalow at Warah, both in the Shikárpur District, during the year under report.

The amount shown under "Contributions" was contributed by private persons, Municipalities, and other bodies towards various objects.

19. *Contributions.*—The receipts under this head amounted to Rs. 2,18,412-15-10, showing a decrease of Rs. 11,044-5-10 as compared with 1892-93. Provincial contributions amounted to Rs. 2,17,412-15-10 and were composed of the following items :—

District.	Fishery Receipts.			Contributions in lieu of one-anna cess on Excise Revenue.			Government Grant to Primary Education.			Government Grant towards the Construction of Buildings. The sum of Rs. 1,000 shown under Contributions from other Boards was contributed by the Upper Sind Frontier District Board to that of the Shikárpur District on account of the Sind Horse Show held at Shikárpur during the year under report.

21. *XVIII.—Administration.*—The expenditure shown under this head includes charges on account of establishments entertained by Local Boards and Local Fund establishment employed in Government offices, &c., and amounted to Rs. 24,690-2-3 against Rs. 22,742-11-10, showing an increase of Rs. 1,947-6-5 which occured in the Hyderabad and Thar and Párkar Districts. The increase in the former district is chiefly due to the entertainment of another overseer for the Badin and Tando Bágo Tálukas, while that in the latter district is attributable partly to the Local Fund Overseer's establishment having been entertained for the whole year (whereas the expenditure on that account in the previous year was incurred for 2 months and 13 days only), and partly to the purchase of furniture, &c., for the Táluka Local Board offices.

22. *XX.—Police.*—There was no expenditure under this head during the year under report.

23. *XXII.—Education.*—The expenditure under this head amounted to Rs. 2,65,722-5-8 against Rs. 2,59,010-2-10 in the previous year, showing an increase of Rs. 6,712-2-10 as per subjoined table :—

District.	1893-94.	1892-93.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total ...	2,65,722 5 8	2,59,010 2 10	12,532 5 5	5,820 2 7

The increase is chiefly attributable—

(*a*) to the opening of new schools in the Hyderabad and Shikárpur Districts;

(*b*) to increase in the strength of teachers in the Hyderabad District;

(*c*) to promotion to teachers in the Hyderabad and Thar and Párkar Districts;

(*d*) to larger contributions by the Hyderabad Boards towards Industrial and Indigenous schools by way of grant-in-aid;

(*e*) to payment of a contribution of Rs. 10,000 in the Shikárpur District towards the Victoria Jubilee Technical Institute at Sukkur; and

(*f*) to larger amounts paid as grants-in-aid to Indigenous schools in the Upper Sind Frontier District and also to a building grant made in that district for the Agricultural School at Hyderabad.

The decrease in the Karáchi District is chiefly due to the payment of a subsidy amounting to Rs. 7,500 to the Female Training College for buildings and apparatus in 1892-93, which was not repeated.

24. *XXIV.—Medical.*—The expenditure under this head comprises the following items:—

Items.	Karáchi.	Hyderabad.	Shikárpur.	Thar and Párkar.	Upper Sind Frontier.	Total.

The figures show a net decrease of Rs. 9,667-5-10 which occurs in the Karáchi and Shikárpur Districts. The decrease in the former district is chiefly due to the fact that a sum of Rs. 5,500 was contributed in 1892-93 towards the building of a new dispensary at Kotri, against which there was only a sum of Rs. 200 contributed to the North-Western Railway Dispensary at Dadu in 1893-94; while that in the latter district is attributable to reductions in the grants made by the District Board towards the dispensaries at Ghotki and Rohri and to the non-payment of contribution towards the cost of vaccination for 1893-94 owing to the non-receipt of figures from the Deputy Sanitary Commissioner, Sind Registration District, in time.

25. *XXVI.—Scientific and other Minor Departments.*—The expenditure under this head during the year under review, compared with that of the previous year, shows a net increase of Rs. 2,998-3-10 as detailed below:—

	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.
Karáchi	.....	1,046 14 8

Upper Sind Frontier ...	.....	5,838 0 7
Total ...	9,917 0 5	6,918 12 7
Net Increase ...	2,998 3 10	

The increase in the Hyderabrd District is partly due to the improvement of the Farm and purchase of cows and buffaloes for the Dairy, and partly to increased expenditure incurred in connection with the Horse and Cattle Show held at Moro and also to the employment of Munshis for checking traffic at Tando Muhammad Khan for the whole year. In the Shikárpur District the increase is attributable—

(*a*) to the Sind Horse Show held at Shikárpur during the year;

(*b*) to the opening of a Veterinary Dispensary at Shikárpur towards the maintenance of which the District Board contributed a sum of Rs. 2,600; and

(*c*) to the entertainment of an establishment for the registration of trade statistics between Lárkhána and Kambar in connection with proposals for a railway line between the two places.

The decrease in Karáchi is due to the Veterinary Dispensary being wholly maintained by the District Board in 1892-93, whereas in the year under report it became a Grant-in-aid Dispensary; that in the Upper Sind Frontier District is accounted for by the fact of the Sind Horse Show having been held during the year at Shikárpur instead of at Jacobabad. The decrease in the Thar and Párkar District was trifling.

26. *XXX.—Stationery and Printing.*—The expenditure incurred under this head amounted to Rs. 3,192-7-9 against Rs. 1,268-14-3 in the previous year, showing an increase of Rs. 1,923-9-6. The increase occurs chiefly in Karáchi and Shikárpur and is mainly attributable to the printing of forms in connection with the Local Board elections.

27. *XXXII.—Miscellaneous.*—The expenditure incurred on account of establishments for travellers' bungalows, &c., during the year under report, as compared with the previous year in each district, is given separately in the following table:—

District.	1893-94.	1892-93.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

			Net decrease	224 4 5

The expenditure in the Hyderabad District was abnormal in 1892-93; hence the large decrease. The small increase shown in the other districts call for no remark.

28. The expenditure under "Other Petty Establishments" amounted to Rs. 53,823-14-2 against Rs. 56,320-3-7. Details are given below:—

			Net Decrease.	2,496 5 5

29. The above figures show a net decrease of Rs. 2,496-5-5 on those of the previous year. The largest decrease occurs in the Shikárpur District and is

chiefly attributable to reduction in the cost of establishment employed on account of preservation and plantation of trees.

30. The expenditure shewn under "Miscellaneous and Unforeseen Charges" comprises the following items :—

32. *XLV.—Civil Works.*—The total expenditure under this head amounted to Rs. 3,48,044-6-0 against Rs. 3,78,679-0-10, showing a decrease of Rs. 30,634-10-10. The details of these figures are given in the subjoined table :—

The sum of Rs. 1,397 shown under "Civil buildings" against "Educational" has been spent on the following works:—

The sum of Rs. 2,645 was spent in the sinking of wells. The staging bungalows and seráis which have been included under Civil buildings have been provided for by the different Boards, wherever they were required, and are a great boon to the public when travelling. The works carried out by Public Works agency consisted chiefly of bridges in the construction of which professional skill was needed. Rs. 8,896-1-1 were expended in this way, out of which 12 per cent. had to be paid to Public Works establishment for supervision. In the budget estimate for the year Rs. 11,794 were sanctioned for works of this kind, but the Public Works Department were unable to fully utilize the amount.

Contribution made by the Shikárpur District Board towards the maintenance of a road along the spoil bank of the Ghar Canal	105	0	0

Contribution to other Boards.

35. The sum of Rs. 1,000 shown under this head was contributed by the Upper Sind Frontier District Board towards the Horse Show held at Shikárpur in the year under report.

36. The following table shows the opening balances at the beginning of the year under report, together with receipts and expenditure incurred during the year, and the closing balances of the year, for each district separately and for the whole Province:—

District.	Opening Balance.	Receipts.	Expenditure.	Closing Balance.	Remarks.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total ...	3,61,957 12 11	8,40,019 12 5	8,12,293 3 7	3,89,679 5 9	

37. A comparison of the amounts of opening balances with the closing balances entered in the last report will show a difference of Rs. 141-14-5 between the balance of the District General and that of the Mirpur Táluka Board in the Shikárpur District. The difference is due to corrections made under instructions from the Accountant General, Bombay, subsequent to the submission of the report for 1892-93.

38. The balances though less than the year's revenue are large and can well be reduced considerably. Measures are being taken by the Local Boards in communication with the Accountant General to prevent the accumulation of excessive balances in accordance with the instructions contained in Government Resolution No. 2087, dated 5th June 1894, General Department.

39. The table given above shows that the receipts of the Shikárpur District, though in excess of that in the previous year, did not cover the actual expenditure owing to a considerable amount, though less than in the previous year, having been spent on Public Works during the year under report. The excess expenditure (Rs. 1,840-15-7) was, however, not large.

40. The following table exhibits the total expenditure incurred under the different heads in the several districts of the Province for the improvement of sanitation:—

District.	Improvement of water-supply.	Improvement of village sites, &c., including removal of rank vegetation.	Conservancy of towns and villages.	Sanitary arrangements at fairs and festivals.	Other objects calculated to promote the safety, health, comfort and convenience of rural population.	Total.

Total ...	28,686 13 2	629 2 0	378 4 10	478 11 4	224 8 11	30,397 8 3

41. It will be observed from the above table that the amount spent on the improvement of water-supply exceeded that of the previous year by Rs. 3,778-2-9. The largest expenditure was incurred in the Shikárpur District and the smallest in the Thar and Párkar District, as in the previous year. The Boards also do their best to encourage sanitation and endeavours are being made to induce the rayats to come forward with their contributions in order to secure the liberal contributions offered by Government in aid of village water-supply and sanitation, and I am glad to say that 2 applications for a grant-in-aid have been already submitted, one from the Hyderabad District for village sanitation, and the other from the Upper Sind Frontier for village water-supply.

42. As reported last year, there are no Local Fund roads in charge of Executive Engineers in this Province. Copies of the replies of the Superintending Engineers, Indus Left and Right Bank Divisions, Nos. 2651 and 2765, dated respectively the 5th and 6th September 1894, to the references made to them on the subject from this office, are attached.

43. The reports from the several Collectors and Presidents of District Local Boards in the Province of Sind are also appended.

A comparison of the figures given under some heads in this report with those given in the President's reports will show a few differences, which are due to the correction of errors appearing in the latter. The figures have not yet been verified by the Accountant General, *vide* Government Resolution No. 2977, dated 9th August 1894.

From

The COLLECTOR and PRESIDENT,
District Board, Karáchi;

To

The COMMISSIONER in SIND.

Collector and President's Office,
Karáchi, 11th July 1894.

Sir,

I have the honour to submit my Report on the Administration of Local Boards in this district for the year 1893-94, together with the statements Nos. I to IV, and to offer the following remarks on the same.

Statement No. I.

2. The population and area of the district, as compared with the last year, have been increased by 7,071 and 94·27 respectively owing to 16 dehs transferred from the Shikárpur District to Johi Táluka of this district. There is an increase of 1 in the number of members in the Karáchi-Sákro Táluka Board, which is owing to a member for the alienated villages having been elected during the year under report.

3. The number of meetings held during the year was 40, showing a decrease of 1 as compared with the last year. The following details will show the increase and decrease in the number of meetings held by each Board as compared with 1892-93:—

Name of Board.	1893-94.	1892-93.	More.	Less.
District Board	2	2	.....	.....
Karáchi-Sákro	2	2	.....	.....
Tátta	4	2	2	.....
Ghorábári	4	2	2	.....
Sháhbandar-Jati	3	3	.....	.....
Sujáwal-Mirpur	2	3	.....	1
Kotri-Mánjhand	7	8	.....	1
Sehwan	7	2	5	.....
Dádu	5	11	.....	6
Johi	4	6	.....	2
Total ...	40	41	9	10

4. Thus, while there were 2 more meetings held by Karáchi-Sákro and Tátta, and 5 by Sehwán Táluka Boards, the Sujáwal-Mirpur and Kotri-Mánjhand held each one less and Dádu 6 and Johi 2.

Statement No. II.

This statement shows the receipts of each Board under the following heads.

5. *VI Provincial Local Rates.*—Receipts under this head amounted to Rs. 79,001-12-0 against Rs. 56,474-8-0 in the previous year. The increase of Rs. 22,527-4-0 is chiefly due to favourable and timely rains which caused an increase in cultivation.

6. *XVII Police, Rs. 2,781-1-1.*—The receipts are on account of cattle-pounds and show an increase of Rs. 852-8-4, which is due to larger receipts under this head in Johi, Kotri, Mánjhand and Sehwan tálukas.

7. *XIX Education.*—Receipts under this head consist of school-fees, contribution and miscellaneous, and amount to Rs. 7,331-5-0 against Rs. 1,103-7-6 in the previous year. The increase, Rs. 6,227-13-6, is chiefly due to the contribution of Rs. 6,100 made by District Board General towards several educational institutions hitherto shown under "Contributions from other Boards" having now been shown under "Contributions" subordinate to XIX Education according to paragraph 2 of Government Resolution, General Department, No. 2547, dated 22nd July 1893. The excess amount of Rs. 94-15-8, paid by the District Board General towards the establishment in the Educational Inspector in Sind's office, has been deducted from the miscellaneous receipts subordinate to XIX Education.

8. *XX Medical Hospital and Dispensary Receipts.*—The receipts, Rs. 1,417-8-11, under this head consist of the balances at the credit of the dispensaries at Jerruck, Mirpur Bathoro and Tháno Bulakhan transferred to the District Board General on the 31st March 1894 under the orders of Government terminating with Government Resolution, Financial Department, No. 4352, dated 12th December 1893, and Accountant General's general letter No. $\frac{L.F.}{29339}$, dated 8th February 1894.

9. *XXI Scientific and other Minor Departments.*—Other exhibitions and fairs Rs. 32-12-0. There is a decrease of Rs. 243-14-10 under this head which is due to the receipts on account of Shah Yakik and other fairs in the Sháhbandar Táluka not having been credited in this year as the Mukhtyárkar reports that the fairs were held in April 1894.

10. *XXV Miscellaneous.*—The receipts, Rs. 3,309-0-11, under this head consist of staging bungalow fees and other miscellaneous receipts and show an increase of Rs. 764-11-7 as compared with the previous year which is owing to (1) transfer of Mirpur Bathoro market fees to the District Board owing to the abolition of the Municipality there; (2) refund of pay of veterinary establishment paid from Local Funds subsequently debited to the Dispensary Fund; (3) refund of amounts on account of less work done by contractors than that stipulated for.

11. *XXII Civil Works.*—Tolls on ferries, Rs. 19,056-8-1. There is an increase of Rs. 9,892-1-3 under this head, which is owing to the ferry receipts of Kotri-Gidu Ferry, amounting to Rs. 9,452-2-2, and those of Syadpur-Tanka Ferry Steamer, amounting to Rs. 4,072-2-6, in this year instead of Rs. 1,453-3-10 and Rs. 1,423-12-9 respectively in 1892-93.

12. *Contributions.*—Rs. 50 were paid in 1893-94 by the residents of Bhan in Sehwan Táluka against Rs. 570-11-6 contributed by private persons last year.

13. Contribution from Provincial to Local, Rs. 53,104-14-2. These consist of the following items :—

District Board, General.

	Rs.	a.	p.

				16,899	10	8
Táluka Boards sand and quarry fees				1,257	13	6
				53,104	14	2

The difference in receipts as compared with the past year is as under :—

(1). *Fishery receipts.*—There is a decrease of Rs. 5,012-1-0, which is attributable to unfavourable sale of farms.

(2). *Grants to Schools:*—There is an increase of Rs. 3,000 under this head which is due to the Government grant having been increased by Rs. 3,000 in 1893-94.

(3). *Sand and Quarry Fees.*—This shows a decrease of Rs. 181-3-2 which is due to lesser demand for stones and sand.

14. The incidence of taxation and that of income (excluding balance) per head of population is shown against each Board. The former comes to 2 annas and 11 pies per head against 2 annas and 1 pie in the previous year and that of the latter comes to 6 annas and 1 pie per head against 5 annas last year.

The reasons for increase are chiefly—

(1) Increase in cess receipts as explained in paragraph 5.

(2) Increase in ferry receipts as explained in paragraph 11, &c.

STATEMENT No. III.

15. 18 *Administration, Office establishment.*—There has been a decrease of Rs. 139-11-5 owing to less leave allowances having been paid during the year.

16. *Office Contingencies.*—There is a decrease of Rs. 340-4-7 which is owing to fewer articles of dead stock, &c., having been purchased during the year.

17. *Payments of establishment for office of accounts, control and audit.*—There is a decrease of Rs. 13-2-4 under this head which is insignificant.

18. 22 *Education, Maintenance and Management.* (1) Training and Special Schools, Rs. 2,086-9-7.—The amount consists of expenditure on account of Dádu and Tálti industrial schools. The Educational Inspector states that the increase of Rs. 322-11-4 is on account of increased expenditure of the schools.

19. (2) *Primary Schools,* Rs. 24,051-8-11.—The increase, Rs. 2,145-10-1, is attributed to the opening of some new schools and transfer of some schools to Local Funds and to the appointment of trained teachers.

20. *Grants-in-aid,* Rs. 13,701-1-0.—There is a decrease of Rs. 7,900-15-0 under this head. In the previous year Rs. 7,500 were paid as a subsidy to the Female Training College for buildings and apparatus, while no such grant was paid in this year. The grants were made as under :—

	Rs.	a.	p.
(1) Dayárám Jethmall Sind College	2,000	0	0
(2) Madressa	2,000	0	0
(3) Medical School, Hyderabad	1,500	0	0

(8) Sehwan Municipality for primary schools ...	178	0	0
(9) Tátta Municipality for primary schools and a special grant for the girls' school	550	0	0
(10) Bubak ditto for primary schools	350	0	0
(11) Mánjhand do. do.	100	0	0
(12) Female College, Hyderabad	500	0	0

21. *Scholarships,* Rs. 2,634-4-1.—The scholarships were paid as under :—

	Rs.	a.	p.
(1) Stipends under Training College, Hyderabad ..	1,230	2	0
(2) Agricultural School, Hyderabad	535	2	3
(3) Do. Middle and Special Schools	276	0	0
(4) Do. Technical School, Tálti	572	15	10

The increase, Rs. 297-0-5, is due to more scholarships paid in the Technical School, Tálti, and the Agricultural School, Hyderabad.

22. *Miscellaneous*, Rs. 3,519-7-9.—There is a decrease of Rs. 684-9-5 under this head. The Educational Inspector in Sind states that the expenditure on purchase of books and furniture was reduced for want of funds.

23. 24 *Medical Hospitals and Dispensaries*, Rs. 3,850.—There is a decrease of Rs. 5,300 under this head which is chiefly due to the fact that a grant of Rs. 5,500 was made in 1892-93 towards building a new dispensary at Kotri, against which there was only a sum of Rs. 200 contributed to the Railway dispensary at Dádu in 1893-94.

24. *Vaccination Establishment and Charges*, Rs. 5,537-5-4.—There is an increase of Rs. 494-8-10 under this head. The Deputy Sanitary Commissioner, Sind Registration District, states that the increase is chiefly due to the travelling allowance paid to the vaccinators trained at Karáchi and to the payment of travelling and actual allowances to the substitutes who acted for such vaccinators during their absence.

25. *Sanitation Charges*, Rs. 148-14-7.—There is a decrease of Rs. 646-8-6 under this head which is owing to less expenditure incurred this year on account of cutting jungle.

26. *26, Scientific and other Minor Departments, Veterinary charges*, Rs. 1,535.—In 1892-93 the Veterinary Dispensary was wholly maintained by the District Board. In 1893-94 it became a grant-in-aid dispensary, and Government and the Karáchi Municipality also contributed towards its maintenance; hence the decrease of Rs. 1,034-4-11.

27. *Botanical and other Public Gardens*, Rs. 2,000.—The increase of Rs. 200 under this head is owing to a grant of Rs. 200 made to the municipal garden at Sehwan.

28. *30, Stationery and Printing*, Rs. 1,510-15-1.—The increase, Rs. 1,003-12-2 is on account of printing charges of the election forms.

29. *32, Miscellaneous—Staging Bungalow and Serai Establishment.*—The increase, Rs. 45-15-8, is insignificant and needs no explanation.

30. *Other Petty Establishment and Charges*, Rs. 16,900-10-7.—The increase of Rs. 651-11-0 is chiefly owing to the expenditure on account of the Syedpur-Tanka ferry steamer establishment having been incurred for the full year 1893-94 instead of a few months only in 1892-93.

31. *Miscellaneous Unforeseen Charges*, Rs. 849-6-0.—This amount consists of Rs. 718-12-0 on account of cess assigned to Municipalities which is now shown under this head according to the Commissioner in Sind's No. 375, dated 28th February 1894. The remaining amount, Rs. 130-10-0, is on account of cost of medicines.

No. 351 of 1894-95.

LOCAL FUNDS DEPARTMENT.

FROM

THE COLLECTOR AND PRESIDENT,
District Local Board,
Hyderabad;

To

THE COMMISSIONER IN SIND.

Collector's Office,
Hyderabad, 16th July 1894.

SIR,

I have the honour to submit the accompanying Statements Nos. 1 to 4 embodying statistical information, and to report on the administration of the Hyderabad District and Táluka Local Boards for the year 1893-94.

2. The District Local Board held 2 meetings during the year and the executive committee of that Board held the same number of meetings.

3. A comparative statement showing the number of meetings and the average attendance is given below:—

	1892-93.		1893-94.		1893-94.			
					Increase.		Decrease.

Nausháhro do. ...	5	7	6	7	1	...	...	...
Kandiáro do. ...	7	7	11	7	4	...	...	...

The attendance at the District Board's meeting shows an improvement.

The decrease in Hyderabad is reported to be due to the illness of several members.

In tálukas Guni and Badin more meetings were held than in the last year and the average attendance was poor.

The Assistant Collector reports that the number of meetings in Dero Mohbat has decreased by two, but it is still sufficient for the disposal of the work of that indigent táluka.

The decrease in Hála is due to the fact that it was not found necessary to call more meetings. The increase in Tando Allahyar and Shahdádpur is due to works needing consideration.

The reason assigned for the increase in the number of meetings held in all the four tálukas of the Nausháhro Sub-Division is that certain sums had to be re-appropriated from one work to another.

The Act as administered by the Government officials seems to work well, and as the object of the Act is understood the members take greater interest in the business.

4. The area and population of municipal and cantonment limits have been excluded from the figures given in columns 4 and 5 of Statement No. 1.

Statement No. IV.

The windmill and boring apparatus at a cost of Rs. 3,000 and Rs. 1,000 respectively have been ordered for the garden.

A Taylor's lift is being tried in the garden and the result of its working will be reported on separately.

None of the Táluka Local Boards contribute anything towards the cost of conservancy establishment of the several towns and villages in the district. It is entirely borne by the people. In some places Sanitary Committees have been formed to supervise this work.

I have the honour to be,

Sir,

Your most obedient Servant,

A. F. WOODBURN,

Collector and President.

No. 550 of 1894-95.

Local Fund Department.

From

Colonel ALFRED MAYHEW,

Collector of Shikárpur;

To

H. E. M. JAMES, Esquire, I. C. S.,

Commissioner in Sind.

Collector's Office, Sukkur, 13th August 1894.

Sir,

I have the honour to submit my Annual Report on the working of the Bombay Local Boards Act I of 1884, together with statements showing the constitution of the different Boards, their receipts and expenditure for the year 1893-94.

CONSTITUTION OF BOARDS.

No change under this head except that the holders of entirely alienated villages elected from amongst themselves a representative on the District Local Board which vacancy was not filled up since the present Board commenced its term of office, *vide* your Notification No. 483 of 12th March 1894, published at page 23 of Part I *A* of the Sind Official Gazette of 15th March 1894.

The District Board held 1 Special General Meeting and 2 half-yearly meetings during the year. The attendance of members at these meetings was fair.

The Táluka Local Boards held their meetings regularly except the Shikárpur and Kambar Boards. The Assistant Collector, Rohri, states that the attendance of the non-official members was poor in all tálukas except Ghotki. In Rohri no less than ten members failed to attend two-thirds of the meetings.

The executive management has been entrusted to committees appointed under clause 6 of Section 32 of the Act. The work of the Executive Committee of the District Board was performed by circulating propositions amongst the members and not in committee. The work of supervising new works and repairs in progress under the management of Táluka Boards was entrusted to Works Committees appointed by them for the purpose. The provisions of Section 34 of the Act have been availed of on seven occasions.

AREA AND POPULATION.

The figures under these heads have undergone a change owing to the transfer of certain villages from Kakar Táluka to the Karáchi Collectorate, *vide* Government Notification No. 5353 of 25th July 1893.

STATEMENT No. II.

The district closing balance of last year or opening balance of the year under report was Rs. 1,18,060-15-8 against Rs. 1,73,583-6-8, all considered, is not too large and shows attention has been given to the wishes of Government on balances.

Sale-proceeds of trees and grass, &c.

		Rs.	a.	p
1893-94	...	4,086	11	2
1892-93	...	2,925	6	3
Increase Rs.	...	1,161	4	11

As the work of tree-planting increases and the trees grow up, so the revenue derived from the sale of dead timber and loppings of trees increases.

VI.—PROVINCIAL RATES.

Local rate represents cess on land credited to Local Funds under clause *a* of Section 44 of the Act. In 1893-94 the amount realised was Rs. 2,02,519-5-3 against Rs. 1,76,880-10-8, showing an increase of Rs. 25,638-10-7 which is due to the realization of the 5 per cent. Jághir cess which was not levied in 1892-93 owing to correspondence regarding the method of assessing it.

XVII.—Police.

Receipts under Cattle Trespass Act in 1893-94 amounted to Rs. 7,259-5-4 against Rs. 9,345-11-6 in the preceding year. The receipts show a falling off of Rs. 2,086-6-2 due to increased expenditure of Rs. 1,258-13-8 under the head of Establishment, Rs. 663-14-8 under the head of Petty Construction and Repairs, and under Contingencies Rs. 163-9-10.

The net receipts from previous years are compared as follows:—

		Rs.	a.	p.
1889-90	...	6,869	11	9
1890-91	...	5,235	13	9
1891-92	...	9,774	15	5

In some tálukas the expenditure has been more than the actual receipts. In such cases the excesses have been adjusted by minus entries in red ink against other receipts of the Boards. One pound was opened at Keti Mir Mahomed Ghumrah in the Naushahro Abro Táluka.

XIX—Education.

School-fees in primary schools in 1893-94 amounted to Rs. 179-13-0 against Rs. 376-9-6 in the preceding year, showing a decrease of Rs. 196-12-6 due to abolition of school-fees from several schools. Under the head Miscellaneous the receipts amounted as follows:—

		Rs.	a.	p.
1893-94	...	735	6	9
1892-93	...	362	11	6
Increase	...	372	11	3

A sum of Rs. 7 on account of middle and special school scholarship examination fees has been included under this head. It also includes—

Rs. 5 on account of fines.

Rs. 290-6-2 on account of refunds.

Rs. 374-10-6 on account of commission recovered from Curator Government Book Depôt on account of books purchased for Local Board schools.

Rs. 65-0-0 on account of sale-proceeds of old books, &c.

XX.—Medical.

Hospitals and Dispensaries, Rs. 607-13-6.—This is the balance due to the Dokri and Mehar Dispensaries which has been credited to Local Funds owing to these two institutions having been made over to the District Local Board on the 31st March 1894.

The District Local Board contributes Rs. 1,000 towards the support of the Mehar Dispensary and Rs. 600 towards the Dokri Dispensary. The Government contributions have been withdrawn, and the entire charges, amounting in the aggregate Rs. 2,000 for each dispensary, will now fall on the District Board.

Contributions under this head amounted to Rs. 68.

The same amount was received in the year 1892-93. This amount has been contributed by Municipalities on account of vaccination charges.

XXI.—Scientific and other Minor Departments.

Botanical and other Public Garden Receipts.—The amount shown under this head, *viz.* Rs. 2,334-1-7, is on account of the produce of the Shahi Bágh at Shikárpur, the gardens at Pana, Mirpur, Ubauro, Dokri and Radhan. In the year 1892-93 a sum of Rs. 2,208-4-2 was realised. There is a small increase of Rs. 126-13-5 due to the increased receipts from the Shahi Bágh and the garden at Pana.

Miscellaneous.—Rs. 106-13-2, of which Rs. 53-1-2 being the balance of money drawn for the purchase of flags and Rs. 53-12-0 are on account of the sale-proceeds of live stock belonging to the Rohri Táluka Board.

XXV.—Miscellaneous.

Under this head are shown—

	Rs.	a.	p.
Sale of old stores and materials	253	6	1
Staging Bungalow fees	591	8	6
Other items	653	15	2
Or Total	1,498	13	9
Against	1,323	11	4

in 1892-93.

Increase Rs. 175-2-5 which needs no explanation.

Tolls on ferries in—

	Rs.	a.	p.
1893-94	8,471	9	6
1892-93	5,194	6	4
Total Increase ...	3,277	3	2

These are the net receipts after deducting all expenses of management. Since the opening of the Lansdowne Bridge the average receipts and expenditure from ferry steamers have been Rs. 11,471-4-0 and Rs. 10,527-8-0 respectively or Rs. 943-12-0 per annum net receipts.

During 1892-93 the receipts were less, because :

(i) Cholera prevailed which fact made His Highness the Amir of Khairpur close all communications to the ferry.

(ii) The steamer was sent to Kotri for repairs, and as the second steamer was lent to the Hyderabad District Board, all the traffic went by the Lansdowne bridge and some of it by boats, but during the year under report no such causes existed, hence the increase.

Rent of buildings and lands.

Rs. 600 were realised from the rent of shops in Bugri Bágh, and as this year this property has again come under the management of the Táluka Local Board, the lease to the Sukkur Municipality having lapsed, no comparison can be made with the receipts of the preceding year.

Rs. 642-10-6 is the amount on account of rent of shops in the Sadar Bázár at Mehar realised in 1893-94, while Rs. 672-11-3 were realised from the same head in 1892-93, showing a small increase of Rs. 70-0-9 which calls for no remarks.

Sale of buildings and other property other than Nazul—Rs. 1,650.

Rs. 650 are on account of the sale-proceeds of a garden at Khairpur Dherki, *vide* this office No. 194 of 15th July 1893.

Rs. 1,000 are on account of the price of the Staging Bungalow at Warah sold to the Educational Department for use as a school-house at that place, *vide* Commissioner's sanction No. 2366 of 21st September last.

Contributions, Rs. 300.—This amount was contributed by the Shikárpur Municipality towards the maintenance of roads in Shahi Bágh.

Contributions.

From Provincial to Local—

	Rs.	a.	p.
In 1893-94	60,139	15	4
„ 1892-93	53,021	3	7
Increase ...	7,118	11	9

The details of these contributions are as follows :—

	Rs.	a.	p.
Sand and Quarry fee receipts	9,895	8	6
Fishery fees	23,992	4	0
Provincial contribution towards the repairs of their roads.	4,138	0	0
Government grant on account of District Board opening Veterinary Dispensary	1,455	0	0
Government grant towards Sind Horse Show ...	2,000	0	0
Government grant to schools	11,220	1	7
In lieu of One Anna Cess on Excise Revenue ...	3,630	0	0
Government grant for school-buildings	3,809	1	3

The increase is due to Government grant on account of the—

(i.) Sind Horse Show which was held in this district in this year, and is held alternately at Shikárpur and Jacobabad.

(ii.) Veterinary Dispensary at Shikárpur having been opened.

(iii.) Grant on account of half cost for school buildings.

(iv.) Grant for Primary Schools.

From other Boards.

Rs. 1,000 was contributed by the Upper Sind Frontier District on account of Horse Show and Rs. 270 by the Municipalities of Lárkána and Kambar, towards the cost of trade statistical establishment.

Total income, excluding opening balance, amounted—

	Rs.	a.	p.
In 1893-94 to	2,92,477	11	11
„ 1892-93 „	2,53,296	11	9
Increase ...	39,181	0	2

due to increase chiefly under the head of "Local Rate", "Tolls on Ferries" and "Contributions" which has been fully accounted for under those heads.

The incidence of taxation per head of population is annas five and pies ten, or as compared with the year 1892-93 it shows an increase of ten pies per head.

III.—Expenditure.

The expenditure of the several Local Boards amounted—

	Rs.	a.	p.
In 1893-94 to	2,94,318	11	6
and „ 1892-93 „	3,09,419	2	9
Showing a decrease of ...	15,100	7	3

Had the full amount provided in the budget been spent, there would not have been shown a decrease but on the contrary an increase.

A sum of Rs. 20,000 was provided for a bridge over Eastern Nára at Sangrar and a sum of Rs. 8,615 was provided for each of the Dispensaries at Ubauro and Garhi Yasin, but the Executive Engineer, Shikárpur Canals Division, spent only Rs. 5,545 on these works, leaving the balance to be provided in the current year.

18.—ADMINISTRATION.

Office Establishment—

	Rs.	a.	p.
In 1893-94	1,744	8	2
„ 1892-93	811	11	6
Increase ...	932	12	8

This is due to increased rate of travelling allowance sanctioned by the District Board to the two clerks employed under the Presidents, Táluka Local Boards, Lárkána and Rohri Divisions, and to the entertainment of establishment for the registration and record of trade statistics between Kambar and Lárkána in view to proposals for a Railway line from Lárkána to Kambar being worked out.

Office Contingencies.

	Rs.	a.	p.
In 1893-94 amounted to	505	6	11
and „ 1892-93 „	821	13	4
Decrease ...	316	6	5

due to care taken to reduce expenditure under this head.

Payment of Establishment for Office of Account, Control and Audit.

The amount expended under this head is on account of the cost of—

Collector's Local Fund Establishment;

Commissioner's Local Fund Establishment;

Accountant General's Office Audit-fee;

		Rs.	a.	p.
In 1893-94 it was		4,881	1	11
and				
„ 1892-93 „		4,886	0	5
Decrease ...		5	0	6

Requires no explanation.

22.—EDUCATION.

The total expenditure under this head incurred—

	Rs.	a.	p.
In 1893-94 amounted to	80,557	3	7
Against	87,490	13	3

in the preceding year.

	Rs.	a.	p.
The expenditure shows a decrease of ...	6,933	9	8
which is due to the fact that while in 1892-93			
the amount of grants-in-aid was... ...	32,018	6	0
in 1893-94 it fell to	18,616	15	0

Under the head "Primary Schools" there is an increase of Rs. 1,989-8-9, as compared with the year 1892-93.

This is due to twelve additional Primary Schools having been opened during the year.

The number of Mosque Schools rose from 384 in 1892-93 to 423 in 1893-94.

Two schools were closed in the Kakar Táluka owing to the poor attendance. Four went to the Karáchi District when the sixteen villages of the Kakar Táluka were transferred to Karáchi District, *vide* Government Resolution No. 5353 of 25th July 1893, published at pages 661 and 662 of the *Bombay Government Gazette.*

Training and Special Schools.

	Rs.	a.	p.
1893-94	1,378	9	2
1892-93	370	0	0
Increase ...	1,008	9	2

due to the fact that the first charge on account of the purchase of tools and apparatus required on the opening of Technical Schools was incurred in this year.

The District Board provides for twenty scholarships in the Training College and ten in the Agricultural Class at Hyderabad.

There are at present 118 schools, which are maintained at the cost of Local Funds. The number of trained head-masters required for these schools should likewise be 118, but at present there are only 79, the remaining 39 schools are in charge of untrained masters. The college turned out in this year eight men for employment in this district, and these are distributed among Municipal and Local Board schools. In time trained masters will take the place of the untrained, perhaps in five years hence.

Under the head Miscellaneous there is an increase of Rs. 2,591-14-8, which is due to the increase in the number of schools, and the charges consequent thereon. During the year under report the Educational Inspector in Sind brought to notice that the District Board was entitled to 33 per cent. of their expenditure on primary education from Government as a grant, while at present, *i.e.*, for years it had been getting only 11 per cent. As the District Board has nearly exhausted their reserved balance under Education and as the cost of primary education in this district is rising by leaps and bounds, and is now actually more than the income under this head, the Board suggested that the time has

arrived when Government should be moved to increase their grant. If this be not done grants to institutions outside the district will have to be dealt with and reduced or even refused.

XXIV.—Medical.

The amount expended under Hospitals and Dispensaries is as follows:—

	Rs.
1893-94	12,291
1892-93	12,700
Decrease ...	409

due to the District Board having reduced their grant to the Ghotki and Rohri Dispensaries.

Vaccination Establishment and charges amounted—

	Rs.	a.	p.
In 1893-94 to	2,610	8	7
„ 1892-93 „	6,000	11	1
Decrease ...	3,390	2	6

This decrease is not real but purely nominal, and a contribution is now made to Provincial Revenue instead of vaccinators being paid direct from this Department, *vide* Government Resolution No. 3584 of 6th September 1892, Financial Department, and Accountant General's circular letter No. $\frac{L.F.}{2017}$ of 2nd May 1893. Further an unfortunately large contribution due to Government under the head Vaccination for 1893-94 was not paid within the year as the Deputy Sanitary Commissioner, Sind Registration District, was not able to furnish figures before.

Sanitation charges.

	Rs.	a.	p.
In 1893-94 amounted to	776	9	6
and			
„ 1892-93 „	972	14	8
Decrease ...	196	5	2

due to a reduction in the cost of the conservancy establishment maintained by the Táluka Local Boards Mehar and Kakar. A sum of Rs. 368-13-0 on account of the cost of quinine and pice packets of quinine, which the Board obtained from the Government Royal Botanical Gardens, Calcutta, for free distribution amongst poor and needy sufferers living in outlying villages, is included in the above item.

12,000 packets were received and distributed by the Board gratis.

26.—Scientific and other Minor Departments.

Under "Horse Fairs" a sum of Rs. 7,358-2-10 has been shown and needs no further remarks.

Veterinary charges.

	Rs.	a.	p.
1893-94	201	8	0
1892-93	299	11	0
Decrease ...	98	3	0

due to a veterinary student having joined the College only in November, consequently half the charges under this head were saved.

The Veterinary Hospital was, as mentioned in the last report, opened on the 15th May 1893. The following statistics in connection with this institution will be found interesting and have been embodied in this report as directed in Government Resolution No. 8667, dated 27th November 1893:—

	Number of patients.
Admitted	421
Cured	308
Relieved	36
Died	4
Unknown	40
Remaining	26
Incurable	7

The District Board contributed Rs. 2,600 towards the support of this Hospital, and besides spent Rs. 1,853 in the construction of the building and stables for sick animals.

The Veterinary Dispensary has a fund of its own to which all receipts are credited and charges debited.

An Itinerating Veterinary Graduate has been appointed to this district, and as this officer is a foreigner and must take some time to make himself familiar with the language of the people he has been placed in charge of the dispensary, and the Sindhi Veterinary Graduate deputed on itinerating duty.

The expenditure of this dispensary for the year under report amounted to Rs. 2,488-5-0.

Bull and Stallion charges.

	Rs.	a.	p.
In 1893-94	2,227	14	3
„ 1892-93	2,132	1	1
Increase ...	95	13	2

due to new gear having been supplied to Government stallions.

The number of horse stallions remains the same. That of donkey stallions shows one short, donkey stallion Gopi-Gunj having been sold by order of the Superintendent, Civil Veterinary Department, Bombay Presidency.

The number of mares covered by horse stallions was 114, that by donkey stallions was 497, or an average of $28\frac{1}{2}$ and $45\frac{2}{11}$ respectively; the largest number of mares covered by a horse stallion was 33 and the lowest 22, and of donkey stallion 65 and 16, respectively.

The result of coverings remains as unsatisfactory as before, as not a single one of the Táluka officials appears to take any interest in the matter of ascertaining the result of the covering operations.

Two horse stallions and one donkey stallion were taken on tour by Mr. Kennedy, the District Superintendent of Police, and although the animals were very healthy when on tour, and the number of mares covered by them was greater than when they were at one place, yet this much must be noticed and noted that in Sind there are two covering seasons, (1) in September and October, (2) in April and May, and are fixed so as to be certain of green fodder for the mares sometimes before and after dropping—of course as mares can be made to "horse" at any time.

Botanical and other Public Gardens.

The expenditure under this head was:—

	Rs.	a.	p.
in 1893-94	3,784	5	6
and „ 1892-93	6,146	11	0
Decrease ...	2,362	5	6

The decrease is due to a decrease in the number of gardens kept up by the different Boards. The Rohri Táluka Board closed their garden. The Ubauro Táluka Board abolished the garden at Khairpur-Dherki, and probably due also to the District Board having been obliged to abandon the nursery garden at Sukkur, a very questionable proceeding, as from this thousands of fruit trees of many and various kinds as also flowering shrubs and vegetable plants were annually distributed gratis to those who might require or wish to have them.

XXX.—Stationery and Printing.

Stationery purchased in the country in—

	Rs.	a.	p.
1893-94	281	15	7
1892-93	104	5	7
Increase ...	177	10	0

which is due to the fact that stationery required for Local Fund correspondence has been separately and distinctly accounted for. Previous to this the Táluka officials used to draw at random what they thought was chargeable to Local Board on account of stationery used, but since a separate account is maintained the actual consumption has been charged.

Printing.

	Rs.	a.	p.
1893-94	897	7	10
1892-93	261	3	1
Increase ...	636	4	9

due to printing of Election Lists 1 and 2 required for publication under Section 20 of the Bombay Local Boards Act, as the term of the Board expired on the 31st May last.

XXXII.—Miscellaneous.

Expenditure under this head is classed as follows :—

Staging Bungalow and Serai Establishments—

	Rs.	a.	p.
In 1893-94 cost	2,181	11	7
„ 1892-93 „	2,138	2	2
Increase ...	43	9	5

Insignificant, needs no explanation.

Other Petty Supply Establishment, consisting of Establishment for the preservation and plantation of trees and *Well Workers*,

	Rs.	a.	p.
Cost in 1893-94	24,885	14	8
and in 1892-93	27,217	14	6
Decrease ...	2,331	15	10

owing to the reduction in the cost of the Establishment proposed by the Rohri, Ubauro, Sukkur, Shikárpur and Naushahro Boards.

45.—Civil Works in charge of Civil and Public Works Officers.

The total expenditure under this head during the year—

	Rs.	a.	p.
1893-94 was	1,37,640	10	7
and in 1892-93	1,49,792	5	6
Decrease ...	12,151	10	11

This has been explained under the Head III Expenditure in this report.

The details of this expenditure are as follows :—

THE COLLECTOR OF SHIKARPUR,

To

THE COMMISSIONER IN SIND.

Collector's Office,
Sukkur, 20th August 1894.

SIR,

I have the honour to request the favour of your causing the following addition to be made under "VI Provincial Rates" in the Administration Report submitted with this office No. 550 of 13th instant:—

"The above figures for 1893-94 are not real, as a sum of Rs. 265-14-5 on account of the District Board share of the cost of Educational Inspector's Local Fund clerk has been adjusted under orders contained in the Accountant General's No. $\frac{L.F.}{16332}$ of 13th September 1893 from this head, otherwise the correct receipts would have been Rs. 202,519-5-3 + 265-14-5 = Rs. 202,785-3-8."

2. Under the head "18 Administration" under "III Expenditure" under "Payment of Establishment" for offices of "Account, Control and Audit," please read as follows :—

"The amount expended under this head is less by Rs. 265-14-5 on account "of the share of cost of Educational Inspector's Local Fund clerk and is other- "wise on account of—

"If the above sum of Rs. 265-14-5 was not adjusted as directed by the "Accountant General in his letter above quoted, but as suggested in this office "No. 403 of 25th August last, the real result under this head would have been not "a decrease of Rs. 4-14-6 but an increase of Rs. 260-15-11, which is due to the "amount of travelling allowance drawn by the Local Fund Accountant, who was "for the first time taken on tour from the year 1892-93," in which year no contribution was adjusted.

Sir,

LOCAL FUNDS DEPARTMENT.

From

C. E. S. STEELE, ESQUIRE,
Deputy Commissioner and President
District Local Board, Thar and Párkar;

To

H. E. M. JAMES, ESQ.,
Commissioner in Sind.

Deputy Commissioner's Office,
Hyderabad, dated 4th July 1894.

SIR,

I have the honour to submit the Annual Administration Report on the working of the Local Boards in this district for the year ending 31st March 1894, together with the four Statements marginally noted.

I.—Constitution.
II.—Income.
III.—Expenditure.
IV.—Sanitation.

STATEMENT No. I.

Constitution.

2. The District and Táluka Local Boards were constituted under Government Resolution No. 1293, dated 12th February 1885, as modified by Government Resolution No. 4389, dated 29th June 1891.

3. The total population and area within the limits of the district shown in columns 4 and 5 is the same as shown last year, the area and population of the Municipal towns of Umarkot and Mithi having been omitted from these columns.

4. Owing to the appointment of the Assistant Collector, Nára Valley Division of this district, the Government in their Resolution were pleased to

increase the number of the District Local Board members from 9 to 10, *vide* their Resolution No. 2189, dated the 21st June 1893, and thus the total number of members constituting the District and Táluka Boards has been 49, of which 47 are nominated and 2 elected. The extension of the elective franchise to this district was not considered expedient, owing to the comparatively backward condition of the people. The two elected members are representatives of the Municipalities of Umarkot and Mithi. The number of meetings held during the year under report has been 60 as against 59 in the last year.

5. The business of the Board is practically carried on by the official members. The non-official members as yet take but little interest in their duties, but content themselves principally with attending the meetings and agreeing to the proposals brought forward by the official members. The official members have worked satisfactorily, specially the Vice-President of the Khipra Board, Ráo Sáheb Rambux.

6. As regards the number of meetings; of these there seems to have been a sufficiency except in the case of Thar and Párkar Boards. The funds at the disposal of these two Boards were, however, so insignificant that it was not necessary to hold many meetings. The provisions of Section 34 of the Act were also availed of on twenty-four occasions for the circulation of propositions among members of the District Local Board.

7. The inadequate attendance of members at the meetings is due to the fact that Local Board members live for the most part in villages situated at a considerable distance from the head-quarter station.

Statement No. II.

Income.

8. The total closing balance of the last year is Rs. 14,070-13-9 as previously shown.

VI.—Provincial Rates.

9. The total realizations under this head amounted to Rs. 43,664-2-0, representing the one anna cess. The whole of the cess levied within the Municipal limits is assigned to the Municipalities concerned under Section 47 of the Local Boards Act. The amount so assigned to the Municipality of Umarkot during the year was Rs. 12-7-0. One-third of the cess exclusive of the above (*viz.*, Rs. 14,554-11-4) was assigned to Educational purposes under Section 48 of the Act, leaving Rs. 29,109-6-8 at the disposal of the District and Táluka Boards. Out of this sum the District Board contributed Rs. 661-8-4 towards the educational institutions noted in the margin. Thus the net amount at the credit of the District and Táluka Boards was Rs. 28,447-14-4 only. As compared with the last year's figures, there is an increase of Rs. 1,720-7-0, which is due to the recovery in the year under report of outstanding revenue.

	Rs.	a.	p.
Sind Arts College	200	0	0
Mahomedan Madressah ...	400	0	0
Contribution towards the pay of the clerk in the Educational Inspector's office. This amount was subsequently refunded to the District Board	61	8	4
Rs.	661	8	4

XII.—Interest.

10. The sum of Rs. 817-15-2 is on account of the interest on the closing balances of certain minor Municipalities which have been abolished. These balances were invested in Government paper, and the interest is annually credited to Local Funds, in consideration of which the Local Boards have undertaken to maintain certain institutions.

XVII.—Police.

Receipts under Cattle Trespass Act.

11. The receipts under this head represent the net profit of the pounds in non-municipal towns. There is a decrease of Rs. 1,914-9-8 under this head due to decreased cultivation in consequence of the closing of the Nára Supply Channel, in order to the deepening of the same, and for the making of additions

and alterations to the head regulator. Another cause leading to a diminution in receipts under this head was the plentiful supply of fodder in the Desert Tálukas, which induced people to remove their cattle from the Nára Valley.

XIX.—Education.

12. The sum of Rs. 3-4-0 shown under School Fees is on account of an examination fee levied under the Middle and Special School Scholarship Rules. No regular school fees are levied in any of the Local Board schools in this district. The amount of Rs. 104-8-11 shown under Miscellaneous is made up as follows:—

	Rs.	a.	p.
1. Unexpended amount of the prize money refunded by the Deputy Commissioner, Thar and Párkar ...	22	0	6
2. Sale-proceeds of unserviceable articles belonging to Gadro School	1	8	0
3. Sale-proceeds of old bench belonging to Virawah School	0	2	6
4. Sale-proceeds of Class Books and Maps belonging to Chare and Kantio Schools	0	8	2
5. Sale-proceeds of empty box belonging to Umarkot School	0	15	9
6. Amount from one anna cess transferred to Educational Funds on account of pay to the clerk in the Educational Inspector's office in Sind and subsequently refunded ...	61	8	4
7. Pay of the Local Fund Clerk in the Educational Inspector in Sind's office drawn in excess during 1892-93 and subsequently refunded	17	13	8
Rs. ...	104	8	11

XX.—Medical.

13. *Contribution*, Rs. 66-0-0.—This sum was received from the Umarkot and Mithi Municipalities towards vaccination charges under Government Resolution No. 975, dated 14th March 1891, General Department.

Other receipts, Rs. 227-1-4.—The receipts under this head are made up as follows:—

	Rs.	a.	p.
1. Pay of vaccinator's peon drawn in excess ...	7	0	0
2. Sale of unserviceable articles belonging to Local Fund vaccinators	0	1	4
3. Refunded by the Sanitary Boards, Sámaro and Nabisar, the contribution having been discontinued	220	0	0
Total ...	227	1	4

XXI.—Scientific and other Minor Departments.

14. There is an increase of Rs. 43-10-0 under garden receipts as compared with the last year's figures. The increase is insignificant and is due to the favourable character of the season. The sum shown under fairs consists of stall fees collected at the annual fair held at Pir Pithoro in the Khipra Táluka. Such receipts were not realized during the previous year as owing to the outbreak of cholera the fair was stopped under the provisions of the Police Act.

XXV.—Miscellaneous.

15. The sum of Rs. 216-0-0 is on account of sale-proceeds of old materials. The amount shewn under "Serai" fees (Rs. 295-3-0) are rents paid by Government servants for occupying quarters built by Local Fund, and also on account of the rent of the market at Nagar. The increase under this head as compared with the last year's figures is Rs. 55-3-8, and it is chiefly owing to higher occupancy prices received for the market; furthermore, the sum of Rs. 48 was received on account of the rent of Local Fund building at Shadipalli Station occupied by the Postal Department, while during 1892-93 the sum of Rs. 16 was only

received on that account. The total Rs. 63-0-7 under other items is made up as follows:—

	Rs.	a.	p.
1. On account of cost of one copy of Mr. T. W. Tytler's book on horse-breeding, half cost being debited to Local Funds and subsequently recredited to the Thar and Párkar Local Funds by debit to Collector's contract allowances, *vide* Government Resolution No. 1053 of 7th February 1893, Revenue Department	1	5	6
2. Sale-proceeds of a Donkey	10	0	0
3. Recovery of pay drawn in excess by the Local Fund servant employed in Shadipalli road	7	3	7
4. On account of damage done to Local Fund road and sale-proceeds of old and broken road-side trees ...	43	8	0
5. Recovery of pay of Local Fund servant at Goth-Ghulam-Nabi-Shah	0	15	6
Rs. ...	63	0	7

XXXII.—Civil Works.

16. The sum of Rs. 1,155-8-10 represents contributions received from the Panchâit of Gadro and the following Zamindárs for constructing bridges on their Kuriahs crossing the Local Fund roads and for improving well at Gadro:—

	Rs.	a.	p.
1. For constructing bridge over Kuriah of Punu Junejo on road from Khori to Tando Mitha Khán ...	33	0	0
2. Do. Lukman Junejo on road from Turi to Chotiari	183	0	0
3. Constructing bridge over Kuriah of Dinu-Vasan on road from Sanghar to Bakhoro	100	0	0
4. Constructing bridge over Mitha-Pali on road from Napradi to Giror	269	12	5
5. Constructing bridge over Pir-Vilaitshah on road from Khipra to Khoree	269	12	5
6. For improving well at Gadro by the Panchâit of that place	300	0	0
Total ...	1,155	8	10

Contributions.

17. The total Rs. 7,789-1-0 under Contributions from Provincial to Local are made up as follows:—

	Rs.	a.	p.
1. Fishery receipts	750	0	0
2. Grants in lieu of one anna cess on Excise Revenue ...	203	0	0
3. Primary Education	4,850	0	0
4. Provincial Roads	833	0	0
5. Sand and Quarry Fees	988	1	0
6. Fees for Poisonous Drugs	40	0	0
7. School Buildings	125	0	0
Total ...	7,789	1	0

As there is no special column provided for the above items in the Statement No. II, they have been shown under this head as directed by Government in their Resolution No. 3847, dated 5th June 1891. Comparing these receipts with those of last year a net increase will be found of Rs. 3,561-10-0, which is chiefly due to an additional grant of Rs. 3,000 having been sanctioned by Government on account of primary education in their Resolution No. 197, dated 28th January 1893, and Nos. 30 and 261, dated, respectively, the 6th January and 6th February 1894.

18. The incidence of taxation and that of income per head of population is shown against each Board. The incidence of taxation on the whole district population is Re. 0-2-5 per head, and that of income (excluding opening balances) is Re. 0-3-3 per head. This shows an increase of 1 pie on the former and 2 pies on the latter, as compared with that of the previous year. The increase is nominal, being due to collections of outstanding revenue having been made as explained in paragraph 9.

STATEMENT No. III.

19. The sum of Rs. 2,993-4-6 under 18 Administration is on account of pay and batta to the establishment entertained in the office of the Deputy Commissioner, Thar and Párkar; it also includes the salary of the Local Fund Overseer which is shown under this head, in accordance with the instructions given in Government Resolution No. 5325 of 29th July 1890. As compared with the last year's figures, there is an increase of Rs. 721-4-8 owing to the Local Fund Overseer's Establishment having been entertained for the full year, while the expenditure on that account during the last year was only incurred for 2 months and 13 days.

Office Contingencies.

20. There is an increase of Rs. 212-0-1 under this head, which is due to the purchase of furniture, &c., for the Táluka Local Board offices.

21. The sum of Rs. 349-4-6, shown under "Payment of Establishment for office of Accounts, Control and Audit," is made up as follows:—

		R.	a.	p.
1.	Share of Establishment in the office of the Commissioner in Sind	104	0	9
2.	Do. Educational Inspector's office	53	3	9
3.	Do. Accountant General's do.	192	0	0
	Total ...	349	4	6

There is an increase of Rs. 27-3-2 under this head, which is chiefly due to the contribution for the Establishment in the Accountant General's office having been raised from Rs. 156 to 192.

22.—EDUCATION.

Primary Schools.

22. The expenditure under this head during the year under report is Rs. 11,066-1-6, as compared with the last year's figures; there is an increase of Rs. 417-12-7 which is due to the opening of a day school at Párno in Chachra Táluka, and also to the increase of pay of some school-masters under the departmental rules.

Grants-in-aid, Rs. 3,342-12-4.

23. The following grants were made during the year:—

		Rs.	a.	p.
1.	Contribution towards the Mahomedan Madressah ...	400	0	0
2.	Do. Dayaram Jethmal College ...	200	0	0

9.	Do. Hyderabad Medical School ...	300	0	0
	Total ...	3,342	12	4

24. Under scholarships the sum of Rs. 669-11-8 represents the pay of students sent to the Hyderabad Training College and Agricultural Class at

Hyderabad, and on account of scholarships in the Primary and Middle and Special Schools.

25. The sum of Rs. 2,545-10-9 under Miscellaneous is composed of the following items :—

		Rs.	a.	p.
1.	Travelling allowance	65	10	0
2.	Rent	182	3	7
3.	Cost of books	299	1	0
4.	School furniture	257	2	6
5.	Contingencies and miscellaneous	1,416	8	3
6.	Prizes	325	1	5
	Total ...	2,545	10	9

As compared with the last year's figures there is an increase of Rs. 295-14-9, arising under Miscellaneous Contingencies which are always subject to variations

26. The sum of Rs. 2,900 under Hospitals and Dispensaries represents the following grants to Charitable Dispensaries :—

		Rs.	a.	p.
1.	Umarkot	500	0	0
2.	Mithi	300	0	0
3.	Khipra	600	0	0
4.	Cháchra	700	0	0
5.	Nagar	800	0	0
	Total ...	2,900	0	0

Government in their Resolution No. 817, dated the 12th March 1892, were pleased to approve of the establishment of a Grant-in-aid Dispensary at Sanghar, the head-quarter of táluka, and an out-of-the-way place situated in a malarious part of the country, but owing to the necessity for providing for other works, the construction of the building could not be undertaken. Arrangements were, however, made for supplying medical relief during the sickly season at the cost of the Táluka Board; the total expense thus incurred amounted to Rs. 633-5-4. Arrangements have, however, now been made which will admit of the construction of the dispensary building being taken in hand at an early date, and it is hoped that the work will be completed before the hot weather sets in.

27. The sum of Rs. 2,796-14-5 represents expenditure on account of the Vaccination Establishment.

28. The sum of Rs. 170 under Sanitation charges is on account of the grants to the following Sanitary Boards :—

		Rs.	a.	p.
1.	Cháchra	60	0	0
2.	Dipla	30	0	0
3.	Nabisar	80	0	0
	Total ...	170	0	0

As compared with the last year's figures there is a decrease of Rs. 60 owing to the contribution towards the Sanitary Board at Samaro having been discontinued.

Contribution towards the Nabisar Board has also since been discontinued and the amount refunded to the District Local Board, Thar and Párkar.

26.—Scientific and other Minor Departments.

29. The sum of Rs. 59-15-9 under Experimental Cultivation is on account of the cost of 19 maunds of a superior variety of Bájri seed for distribution to Zamindárs for experimental purposes.

30. As compared with the last year's figures there is an increase of Rs. 32-14-9 under the head Bull and Stallion Charges in connection with the new

shed built at Umarkot for the stallion. The present English thorough-bred stallion "Opal" promises to become popular as he has covered 39 mares in the past 10 months. The results of the coverings of 1892-93 are extremely unsatisfactory owing to the former stallion having become too old for service.

30.—Stationery and Printing.

31. There is an increase of Rs. 54-7-2 under Printing, which is due to the large number of forms printed during the year.

32.—Miscellaneous, Staging Bungalow and Serai Establishment and Charges.

32. The sum of Rs. 726-1-4 is on account of the pay to watchmen employed at Dharmsálas. As compared with the last year's figures there is an increase under this head of Rs. 30-14-1, which is due to some places having been vacant during 1892-93.

33. The sum of Rs. 4,062-6-0 under other Petty Establishment represents the expenditure on road-side trees and for the maintenance of two boats at the 18th and 24th miles of the Mithráu Canal. There were originally wooden bridges at these places, but it was found necessary to remove them as they obstructed the flow of water, and would not admit of the passage of boats. In lieu of these two bridges ferry boats have been provided at those places. The boats were supplied by the Public Works Department, and the working expenses are met from Local Funds. The decrease under this head as compared with the last year's figures is of Rs. 330-9-1, which is partly due to the boats ceasing to work for part of the year owing to the close of the Mithráu Canal; furthermore, owing to the heavy fall of rain there was sufficient water in the tanks at Gadro to admit of the working of the well being dispensed with.

34. The sum of Rs. 19-7-0, shown under Miscellaneous and Unforeseen Charges, is made up as follows:—

		Rs.	a.	p.
1.	Expenses during epidemics	7	0	0
2.	Amount assigned to Umarkot Municipality under Section 47	12	7	0
		19	7	0

As there is no special head provided for the above items, they have been shown under this head, *vide* your Nos. 53 and 375, dated the 9th January and 28th February 1894, respectively.

45.—Civil Works, in charge of Civil Officers.

35. The sum of Rs. 13,319-14-9 has been spent on the lines of communication and buildings detailed below:—

		Rs.	a.	p.
1.	On account of constructing compound walls, cook-room and stable at the Shadipalli rest-house ...	318	0	0
2.	Renewing roof of the Dharmsála at Delgan-Bhurgri .	808	11	8
3.	Constructing a landhi for travellers at Sanghar ...	50	0	0
4.	Do. Bhakwo	35	0	0
5.	Constructing a school landhi at Supi Jogoth	50	0	0
6.	Do. do. Railo	50	0	0
7.	Do. do. Kasho	50	0	0

9.	Do. do. Shivlo	50	0	0
10.	Raising the road from Shadipalli Station to the Mithráu Canal	540	0	10
11.	Constructing a bridge on road from Shadipalli Station to Mithráu Canal	273	8	4
12.	Raising the road from Sufi to Umarkot	1,200	0	0
13.	Repairs to buildings	2,268	8	9
14.	Do. roads	6,183	4	7
15.	Do. wells	538	15	7
16.	Do. to Platform below Nim trees and the mosque at Nagar	48	4	0
17.	Do. to school buildings	805	9	0
		13,319	14	9

Civil Works, in charge of Public Works Officers.

36. The expenditure under this head is Rs. 1,698-6-0, which was incurred on the following works :—

		Rs.	a.	p.
1.	Improving and repairing the road along the bank of the Mithráu Canal to facilitate communication with the line of rail	1,234	15	8
2.	Do Thar Canal road	384	2	9
3.	Repairs to Dharmsála, Golari	79	3	7
	Total ...	1,698	6	0

The aggregate expenditure both by Civil and Public Works officers amounts to Rs. 15,018-4-9. The decrease of Rs. 9,013-2-9, as compared with the last year, is due to fewer works having been undertaken owing to want of funds.

Contribution to Provincial.

37. The sum of Rs. 8,000 under this head is on account of the contribution to the Hyderabad-Umarkot Railway. The District Board undertook to contribute a sum of Rs. 20,000 towards the construction of the Hyderabad-Umarkot Railway, out of which Rs. 8,000 were paid in 1891-92, Rs. 8,000 in the year under report, and the balance of Rs. 4,000 would have been paid this year, but in consequence of cultivation having been restricted owing to the early closing of the supply channel, and to the late date on which water was admitted for this season's kharif operations, it is expected that there will be a material falling off in revenue, and consequently of Local Fund receipts; the repayment of a moiety of the balances due has, therefore, only been provided for.

38. The opening balance of the District and Táluka Boards on 1st April 1893, amounted to Rs. 14,070-13-9, and the income during the year under report amounted to Rs. 59,645-14-7, making a total of Rs. 73,716-12-4. The expenditure of the year amounted to Rs. 56,434-2-4, leaving a closing balance of Rs. 17,282-10-0. The increase is chiefly due to several works, which were provided in the Budget for 1893-94, and which were given out on contract, not having been completed within the year; payment was, therefore, postponed.

IV.—Sanitation.

39. In the year under report 26 wells were repaired. Drainage works and other sanitary improvements on a large scale are less needed in this and other parts of Sind than elsewhere for the reasons stated in Sir Charles Pritchard's memorandum to Government, No. 1133, dated the 14th September 1888. Due attention is, however, paid to petty improvements such as the filling up of hollows and the removal of jungle, &c.

40. The various members of the Establishment, including the Accountant, have discharged their duties efficiently during the period covered by this report.

I have the honour to be,

SIR,

I have the honour to submit the Annual Administration Report on the working of the Local Boards in the Upper Sind Frontier for the year 1893-94, together with the Statistical Tables I to IV in the form prescribed by the Government of India notified under Government Resolution No. 779 of 30th January 1890.

2. The instructions contained in Government Resolutions Nos. 4686 and 3847, dated the 5th July 1890 and 5th June 1891, respectively, have been duly attended to.

STATEMENT No. I.

3. Statement No. I gives the strength of each Local Board, the number of meetings held, and the average attendance at each. With regard to the constitution of the Boards it should be mentioned that the extension of the elective franchise to this district was not considered expedient owing to its comparatively backward condition; the Boards were, therefore, constituted under the conditions contained in Government Resolution No. 9547, dated 3rd December 1884. In terms of the notification so issued, the Jacobabad Municipality elects a representative, and in the other táluka head-quarter towns the Panchâyats return a member; for the rest the Boards consist of *ex-officio* and nominated members.

4. The total population and area within the limits of the district is the same as shewn last year.

5. The number of meetings held appears to have been sufficient except in Jacobabad and Thul. The number of meetings held in Thal was less by six than that held during the previous year. The District Local Board complied with the provisions of the rule regarding the holding of half-yearly meetings. The provisions of Section 34 of the Act, which allow of propositions amongst members of the District Local Board, were taken advantage of on sixteen occasions.

6. Having only very recently assumed charge of the district, I have had very little opportunity of gauging the usefulness of members of the Boards. Judging, however, from the one meeting which I have attended, I conclude that the conditions under which work is carried out, is very much the same as in most districts, and the burden of work and responsibility entirely rests on the shoulders of the officials. Under such circumstances the business of the Boards is got through without much difficulty. I do not feel qualified to express any opinion as to the official members, but have little doubt that they carry out their duties with the same devotion as in other matters.

STATEMENT No. II.

7. The headings in this statement are so comprehensive that little seems called for in the way of comment. It may be explained, however, that the sum of Rs. 48 shown under "Veterinary receipts" represents the share received on account of the hire of the Government donkey stallions working at the municipal well in Jacobabad. As compared with the figures of the last year, the decrease is only Rs. 4, which calls for no explanation as the realization is for the past twelve months at the rate of Rs. 4 per mensem.

8. The sum of Rs. 15,305-0-0, shown under contributions, is composed of the following items :—

	Rs.	a.	p.
Government grant on account of the Provincial roads ...	3,429	0	0
Do. in lieu of one anna cess on Excise Revenue.	1,732	0	0
Do. to schools	8,090	12	7
Do. to school buildings	685	0	0
Do. to fishery receipts	1,295	0	0
Do. to sand and quarry receipts ...	8	0	0
Grant to Schools from Local Funds of the amount equivalent to the pro rata share of the cost of Establishment employed in the Educational Inspector's office, vide Government Resolution No. 1536, dated 2nd April 1892.	65	3	5
Total ...	15,305	0	0

A decrease of Rs. 2,987-4-5 is noticeable under this head as compared with the figures of the previous year which is mainly due to the following causes :—

(1) Rs. 4,500 on account of grants from Government and the Shikárpur District Local Board towards the Sind Horse Show, this show having been held at Shikárpur this year; but

(2) Rs. 1,496-15-2 were received from Government on account of grant to schools and school buildings in excess of the amount received during the preceding year.

9. The sum of Rs. 2,773 shown under "32 Civil Works," sub-head "Contributions," is composed of the following items :—

	Rs.
1. Grant by the Jacobabad Cantonments on account of repairs to roads...	1,000
2. Contribution from private persons for construction of water courses and wells	1,535
3. Contribution from Jacobabad Municipality on account of repairs to the portion of the road from Jacobabad to Begári Bridge lying within the Municipal limits ...	150
4. Contribution from private persons for the construction of a school landhi	88
Total ...	2,773

An increase of Rs. 1,419-11-0 is noticeable under this head as compared with the figures of the previous year, which is due to larger contributions having been made by private persons.

10. The income of the year from all sources was Rs. 65,431-8-10 as against Rs. 70,966-12-7 in the preceding year, which when added to the closing balance of the last year (Rs. 32,679-8-0) gives a total of Rs. 98,111-0-10.

11. The sum of Rs. 317-9-6 appearing under "Sale-proceeds of trees, grass, &c.," subordinate to "I, Land Revenue" represents the sale-proceeds of lopping of roadside trees, bábul pads, and of dead timber, as compared with the figures of the last year; the increase is of Rs. 107-11-7, which is due to the sale of a number of trees which had been blown down.

VI.—Provincial Rates.

12. The revenue shown under this head is the net proceeds of the one anna cess levied under the Sind Local Funds Act, 1865, and amounted to Rs. 43,704-7-7, as compared with Rs. 48,650-5-0 during 1892-93, shewing a decrease of Rs. 4,945-13-5 owing to failure of crops on the Desert Canal.

XVII.—Police.

13. The receipts under this head represent the net profits of the pounds in non-municipal towns. There is a decrease of Rs. 9-13-8 as compared with the figures of the last year. The difference is so insignificant as to call for no explanation.

14. The income on "Tolls on ferries" subordinate to XXXII Civil Works, amounted to Rs. 1,021-8-0 as contrasted with Rs. 828-8-0 during the preceding year, showing larger realization under this heading.

15. The sum of Rs. 140-0-11 appearing under "Other Items" subordinate to "25 Miscellaneous," is composed of the following items :—

	Rs.	a.	p.
(1) On account of unclaimed wages of Local Fund Establishments	3	9	9
(2) Refund on account of stallion charges drawn in excess ...	0	0	2
(3) On account of the cost of repairing Local Fund roads inundated by Zamindári canals	41	5	4
(4) Refund on account of contribution for Local Fund clerk in the Educational Inspector's office drawn in excess during 1892-93	18	14	8
(5) Recovery on account of postal charges for a cover insufficiently stamped by a school-master ...	0	8	0
(6) On account of commission, &c., credited at the Shikárpur Treasury by the Curator, Central Book Depôt, Karáchi	47	11	0
(7) Recovery of batta received by a school-master for attending a Criminal Court	1	0	0
(8) Refund of the amount drawn in excess on account of the construction of a school building at Khahi in the Kashmor Táluka	27	0	0
Total ...	140	0	11

16. The sum of Rs. 848-15-2, shown under "Other Receipts" subordinate to "XX Medical," represents the cash balances of the grant-in-aid dispensaries transferred to Local Funds on the 31st March 1894, in reference to paragraph 1 of the Accountant General's general letter No. $\frac{L.\ F.}{29339}$ of 8th February 1894, as in terms of Government Resolution No. 4352 of 12th December 1893, the District Local Boards have to keep separate account of such dispensaries from the 1st April 1894.

17. The incidence of taxation and that of income per head of population is shown against each Board. The incidence of taxation on the whole district population is 4 annas and 4 pies per head, and the incidence on income (excluding opening balance) is 6 annas and 4 pies. This shows a decrease of pies 6 in the former and 8 pies in the latter as contrasted with the preceding year. The decrease under this head is attributed to decrease under "Local Rate."

DHA'RWA'R.

Statement showing the Original Cost, Mileage and present condition of all Local Roads in the Dhárwár District for the year 1893-94.

No.	Name of Local Roads.	Length in Miles.	Original Cost of construction.	Remarks as to the present condition of the Road.
			Rs.	
1	Navalgund-Annigeri Road ...	11½	1,10,226	Metalled throughout and in good order. Three unbridged streams sometimes give a little trouble.
2	Navalgund-Ron Road ...	28	1,49,007	A fair weather road only, unbridged as to the large streams and muramed for only 20 miles.
3	Masur-Mundergi Road ...	47	32,248	A fair weather road, misnamed. From Masur to Guthal the road is made or being made. North of Guthal towards Mundergi, a distance of 25 miles there is no road at all, nor is a road likely to be made for many years. Just outside Mundergi the road is made for 7 miles only in the direction of Guthal.
4	Pála-Bádámi Road	78	1,45,600	This also is a too-ambitiously named road. From Pála to Bankápur (19 miles) it is a good muram road bridged throughout. From Bankápur to Yalvigi (14 miles) the road is bridged and metalled in the portions within British Territory, but there are bad breaks in the Native State of Savanúr, Miraj, Junior. From Yalvigi the road is through Native States for a length of 15 miles and is fair in places and indifferent in others. Near Mulgund where British Territory is again entered there is a break of 7 miles of unmade road to Harti. From Harti to the Bádámi frontier (37 miles) the road is fair, but unbridged and heavy in the rains. During the year 1891-92 the improvements sanctioned by the District Board in 1887 for the portion between Gadag and Kotumchgi (14 miles) were completed, but there is much room still for improvements. The work done so far is all good, consisting of laying a muram surface and making up the nála crossings with proper approaches and metalled roadway.
5	Todas-Gundi Road	34½	Not known.	A fair weather road mostly unbridged.
6	Harihar-Samasgi Road ...	51¼	Do.	A fair weather road metalled in places.
7	Byádgi-Háuasbhávi Road ...	10¾	24,690	Do. do.
8	Dhárwár-Todas Road ...	29¼	37,138	A fair muram road bridged throughout.
9	Do. Haliyál Road ...	17-556ft.	21,980	A metalled road, bridged and drained, in fair order.
10	Do. Sawadatti Road ...	1[illegible]1,425 ft.	29,825	Partially metalled, but unbridged.

W. L. CAMERON, A.M.Inst.C.E.,
Executive Engineer, Dhárwár District.

RESOLUTION.—These reports were originally submitted in manuscript with commendable punctuality, but there has been considerable delay in the issue of the printed volume. This appears to have been due partly to delay in correcting proofs of the numerous detailed tabular statements and partly to difficulty experienced by the Commissioner in Sind in ascertaining exactly what alterations in his report were rendered necessary by corrections of his statistics which the Accountant General had made simply by means of plus and minus entries. Government trust that in future such delay will be avoided.

2. In the year ending on the 31st March 1894 the Local Boards in this Presidency consisted, as in the previous year, of 23 District and 201 Táluka Boards. As the result of the triennial elections, which fell due during the year, the Boards in the districts of Broach and Karáchi were reconstituted. At those elections only 20 per cent. of the voters on the register availed themselves of their franchise in the former district and 31 per cent. in the latter. The Commissioners have commented on the number of meetings held by the various Boards during the year and on the attendance thereat, and the attention of Presidents should be called to their remarks.

3. The gross Local Board revenue, exclusive of balances, is compared in the following table for the years 1892-93 and 1893-94 under the usual heads.

The important features were the increases in receipts from "Provincial Rates" and "Contributions.

4. Provincial Rates, which form the revenue from taxation and form the most important item of receipt, are represented by the "One-anna Cess" which varies with the Land Revenue. Increases are reported from numerous districts and are attributed chiefly to revision survey settlements, to increase of cultivation, or to the recovery of arrears.

The revenue under the head "Police," consisting of Cattle Pound receipts, is important in the Central Division alone, where the collections amounted to no less than Rs. 1,14,156, as compared with Rs. 28,026 and Rs. 26.084 respectively in the Northern and Southern Divisions. The Commissioner, C. D., should be asked if he can explain the comparatively large demand for pounds in his division which is indicated by these figures.

The "Education" receipts in Sind are extremely low and are less than half the collections of the previous year, which included certain special grants. The comparatively large revenue under this head in the Southern Division is partly accounted for by the inclusion of the sale-proceeds of furniture made at the Ratnágiri School of Industry; but, apart from this, the fees levied at primary schools are appreciably in excess of those collected in the other Divisions of the Presidency proper.

The general increase under the head "Medical" is accounted for by the transfer, during the year under report, of Dispensary Fund balances from "Excluded" to "Incorporated" Local Funds.

The fluctuations in receipts under the head "Civil Works" are in toll collections and contributions from Municipalities and private persons. The figures for Sind include a large item which belonged to the previous year.

The increase in "Contributions," which are mainly received from Government, is explained by the larger grants made by Government in the year under review. The grants thus made from Provincial Revenues included grants for the important purposes of village water-supply and sanitation in the three divisions of the Presidency proper. These grants, which are noted in the margin, were subject to conditions as regards the expenditure of proportional amounts from Local Revenues and private contributions raised for the purpose.

Southern do.	49,333

5. The incidence of "Taxation" and the average income of the Local Boards per head of population are given below. The high incidence reported from the Northern Division is due to the high incidence in the Broach District, viz., 8 annas 9 pies for taxation and 11 annas 2 pies for income.

6. The expenditure incurred by Local Boards in the year 1893-94 is compared with that of the previous year in the following table. A very marked and (in view of the state of the balances) an apparently unnecessary decrease in the expenditure incurred on Civil Works in the Southern Division and Sind is observed. But in other respects the variations between the figures for the two years under comparison are less striking than the variations between the different divisions as regards the apportionment of funds to the various expenditure heads. More than 72 per cent. of the total expenditure under the head "Scientific and Minor" was incurred in Sind, in which Province also 54 per cent. of the total "Miscellaneous" expenditure was incurred; and the expenditure on "Medical," though less indeed than in the previous year, was, in proportion to the funds available, much larger than in the divisions of the Presidency proper. On the other hand, while the Boards of the Northern and Central Divisions apportioned 58 per cent. of their expenditure to the important head "Civil Works," the percentage in Sind was only 43. In the Southern Division also the percentage for Civil Works was low; and this division is noticeable also for its very high percentage of expenditure on Education.

7. The greater portion of the year's expenditure was as usual incurred on Civil Works. The figures for the various heads (except drainage, in which no expenditure was incurred), are as follows.

		Northern Division.	Central Division.	Southern Division.	Sind.
		Rs.	Rs.	Rs.	Rs.
Works in charge of Civil Officers.	1. Buildings, Communications and Miscellaneous improvements.	1,41,224	1,98,107	1,72,378	2,75,672
	2. Water-works	1,55,887	99,274	75,466	26,986
	3. Establishment, Contingencies, Tools and plant.	22,198	26,886	17,265	737
Works in charge of Public Works Department.	1. Buildings, Communications and Miscellaneous improvements.	3,37,144	4,21,165	2,26,815	40,034
	2. Water-works	22,060	15,971	13,846	144
	3. Establishment, Contingencies, Tools and plant.	45,485	52,789	34,504	4,463

It seems extraordinary that so small an expenditure on Establishment, Contingencies, Tools and plant should have been found possible in Sind, in the case of works undertaken by Civil agency; and the Commissioner should be asked to verify the figures and report whether there is a very extensive practice of getting works executed by contract, and, if not, whether Establishment and Contingent charges have been included in the cost of the works themselves.

8. The expenditure on account of the original cost of Communications is shown separately in the margin. A noticeably large percentage of the expenditure was entrusted to Civil agency in Sind, where the advantages of employing the services of Public Works Department officers do not appear to have been fully recognized, though the works under construction comprised 43 bridges and 21 miles of road in Karáchi, 13 bridges in Hyderabad and 11 bridges and a veterinary dispensary in Shikárpur. In the Northern Division a large sum was as usual available for expenditure on communications, especially in Surat, where Rs. 61,489 were expended. The Commissioner, N. D., should be asked to furnish fuller information in future as to the nature of the works constructed. In the Central Division the expenditure under this head was chiefly incurred in Khándesh (Rs. 62,304) where much progress was made in constructing 27 roads. The Commissioner, S. D., has not given any details regarding the original cost of communications in his Division, but it is observed that Civil agency has been to a great extent dispensed with, and that of Rs. 76,898 spent by the Public Works Department, Rs. 33,573 and 20,455 were used in the Belgaum and Bijápur Districts, respectively.

9. The expenditure on account of the original cost of Civil Buildings was comparatively small in the Northern Division and in Sind, and in both was chiefly incurred by Civil agency on school-houses.

	Rs.	Rs.	Rs.
Northern Division ...	23,066	7,506	30,572

Sind	22,666	12,665	35,331
Total ...	1,23,944	99,994	2,23,938

The extremely large expenditure of the Central Division was due chiefly to the progress made in Khándesh, where Rs. 59,169 were expended, and, amongst other things, 34 school-houses, 13 dharmshálas, 30 chávdis and 3 dispensaries were newly erected. In the Southern Division the buildings constructed included 39 school-houses, 5 chávdis and 25 dharmshálas.

10. The expenditure on repairs, in connection with Civil Works, was comparatively high in the Central Division, where it amounted to 28 per cent. of the year's income, as compared with percentages of 24·4 in Sind, 23·3 in the Southern Division, and 22·8 in the Northern Division. In Sind almost the whole, and in the Southern Division a large portion of this expenditure was entrusted to Civil agency. The figures are given below.

11. The expenditure on water-supply, to which Govern[illegible] much importance, and for which they have for the [illegible] years given grants-in-aid from Provincial Revenues, is give[illegible] thousands of rupees, for all the districts in the Presidency, in the appended table, which shows that attention was paid to the matter in the Northern Division and in some districts of the Central and Southern Divisions, while comparatively small progress was found possible in Sind. The actual progress made in the year under review in the whole Presidency, including Sind, is represented by the construction of 74 new tanks, 811 new wells, and the repair or improvement of 1,297 existing sources of water-supply.

12. An important portion of the expenditure on Education, viz., that incurred in building and repairing school-houses, is, as shown in paragraph 9 above, debited to the account head "Civil Works—Civil Buildings." Almost the whole of the expenditure (Rs. 14,84,236) given under the head "Education" in paragraph 6 above is devoted to the maintenance of rural primary schools, for which the Local Boards are responsible. As an assistance in maintaining these schools the Boards received grants from Provincial Revenues as shown below, in addition to grants for special instruction and building grants.

	Rs.
Northern Division	1,20,384
Central do.	1,54,697
Southern do.	1,50,209
Sind	68,123
Total...	4,93,412

13. The opening and closing balances of the Boards in the different Divisions are given below:—

	Opening Balance.	Closing Balance.
	Rs.	Rs.
Northern Division ...	8,44,042	9,04,723
Central do. ...	9,10,427	9,49,179
Southern do. ...	6,01,682	6,28,615
Sind	3,61,958	3,89,679
Total ...	27,18,109	28,72,196

The general increase [illegible] be regarded as satisfactory, for the balances are already much too large in the majority of districts, and though a justification for considerable balances is recognized in the fact that the collection of Provincial rates is made towards the end of the Local Fund year, whereas large expenditure has to be incurred in the early portion of the year, yet there can rarely, if ever, be good cause for the accumulation of a balance approximating to the annual revenue, as was the case in the year under report in the districts of Panch Mahâls, Broach, Surat, Khándesh, Dhárwár, and Karáchi. Measures have, however, been taken with a view to the gradual reduction of balances.

14. The Governor in Council entirely concurs in the remarks made by the Commissioner, S. D., in paragraph 10 of his report regarding the desirability of making liberal assignments to the Táluka Boards. These can be made with great advantage for the construction and repair of wells and other small water-works, and the Commissioner's remarks are specially pertinent in connection with the reduction in the already too small expenditure on water-supply in his Division.

15. Though in some respects there is scope for improvement in Local Board administration, the extent of the material improvement, which is being steadily effected, year after year, in rural tracts, by the expenditure, under the control of 224 Local Boards, of an income of nearly half a kror of rupees, must be recognized and regarded with satisfaction. With a view, however, to depicting somewhat more clearly the actual progress made in each year, the Governor in Council would be glad if the Commissioners would in future insert in their
